## From the Chief Executive

Throughout 2022-23, the department continued to play our key advisory role to government, providing analysis and advice on a range of financial, economic and policy matters.

The department played a leading role in coordinating an across government response to the state's housing challenge with the development of the "Our Better Housing Future" policy and associated initiatives contained in the state's budget, published in June.

The department also advised on cost-of-living challenges, including partnering with the Commonwealth and Department of Human Services to introduce the Energy Bill Relief Program announced in the state budget.

The department has worked closely with the Treasurer of South Australia and the South Australian Government to prepare the 2022-23 Mid-Year Budget Review and 2023-24 Budget, with key government initiatives implemented in a fiscally responsive manner. It was pleasing that the state's credit rating was recently reaffirmed by rating agencies, including Standard and Poor's announcement to revise South Australia's long term credit rating outlook from negative to stable.

We have continued to focus on developing the capability of our staff to ensure the department meets our key priorities. In April this year we released a new 5-year strategic plan aimed at ensuring the department is a high performing agency providing world class analysis, services and advice.

This year has also seen some additional machinery of government changes, as Parliamentary Network Support Group transitioned to the Joint Parliamentary Service.

Finally, I would like to thank staff across the agency for their dedication and hard work this year. We've accomplished a great deal towards our goal to help South Australia be a thriving, prosperous State now and in the future.

## Overview: about the agency

### Our strategic focus

<b>Our Purpose</b>	<p>In April 2023, DTF launched our strategic plan with a new purpose. The new purpose provides alignment with the South Australian public sector purpose, but provides specificity to the work of Treasury and Finance.</p> <p>‘We work to ensure South Australia is a thriving, prosperous state now and into the future.’</p>
<b>Our Priorities</b>	<p>Economic prosperity <i>Seeking growth and opportunity for all within our state</i></p> <p>Fiscal sustainability <i>Enabling investment in services and infrastructure to make South Australia a great place to live, learn, work and play – now and into the future.</i></p> <p>Service excellence <i>Delivering knowledgeable, thorough and high quality services.</i></p> <p>Contemporary leadership <i>Providing central leadership on across-government initiatives that support a high-performing public service.</i></p> <p>Compelling advice <i>Providing high-quality, well informed, innovative advice that helps achieve successful outcomes.</i></p> <p>World class Treasury and Finance <i>A high performing agency that seizes opportunities, addresses the big challenges and is a destination employer.</i></p>
<b>Our Values</b>	<p>In addition to the public sector values, the department has a number of specific values that inform our culture.</p>
<b>Our functions, objectives and deliverables</b>	<p>The Department of Treasury and Finance is the lead agency for economic, social and financial policy outcomes. We play a vital role in providing financial services to the community and economic and fiscal policy advice to the Government of South Australia.</p> <p>Our people conduct research, analyse information, give advice, contribute to government policy and decision making, engage</p>

	<p>with the markets, and support the Treasurer in producing the State Budget.</p> <p>Our people also provide corporate and business services in the areas of payroll, accounts payable, accounts receivable and financial services so that all South Australian government departments can focus on their core business operations.</p> <p>Our people provide direct services to members of the public.</p> <p>We deliver these through three programs:</p> <ol style="list-style-type: none"> <li>1. Accountability for public sector resources</li> <li>2. Treasury services: <ul style="list-style-type: none"> <li>- Revenue collection and management</li> <li>- Treasury, insurance and fleet services</li> <li>- Superannuation services</li> </ul> </li> <li>3. Government services <ul style="list-style-type: none"> <li>- Shared services</li> <li>- Government procurement</li> <li>- Electorate services</li> <li>- Fines enforcement and recovery unit</li> </ul> </li> </ol>

**Other related agencies within the Minister's area of responsibility**

The following agencies are within the Treasurer's area of responsibility. They each publish their own Annual Report.

**Lifetime Support Authority**

The Lifetime Support Authority (LSA) delivers the Lifetime Support Scheme (LSS), which was established under the *Motor Vehicle Accidents (Lifetime Support Scheme) Act 2013*.

Through the LSS, the LSA funds necessary and reasonable treatment, care and support for people who sustain serious injuries in a motor vehicle accident on South Australian roads, regardless of fault.

The LSA commenced operations on 1 July 2014 and is a statutory authority governed by an independent Board of Directors and a Chief Executive.

LSA is not included in the department's financial statements.

**Office of the Industry Advocate**

The Office of the Industry Advocate's (OIA) role is to take action to further the objectives of the South Australian Industry Participation Policy and to build the capability and capacity of businesses based in South Australia to participate in State Government contracts.

OIA is not included in the department's financial statements.

**Compulsory Third Party Regulator**

The purpose of the Regulator is to deliver a high-performing competitive CTP Scheme that offers choice, ease, and confidence to the South Australian community.

The Regulator is established as an independent statutory authority under the *Compulsory Third Party Insurance Regulation Act 2016* (the Act). The Regulator's functions are funded from the administration fee component of the CTP premium paid by motorists upon registration of their motor vehicles. Regulator staff are employed by Department of Treasury and Finance and seconded to the Regulator.

CTP Regulator is not included in the department's financial statements.

**South Australian Government Financing Authority**

The purpose of the South Australian Government Financing Authority (SAFA) is to deliver quality, cost effective financial, insurance and fleet management services to clients within the South Australian public sector.

SAFA is a statutory authority constituted as the Under Treasurer under the *Government Financing Authority Act 1982* and commenced operations in January 1983.

SAFA is managed by officers assigned from the Department of Treasury and Finance . SAFA, the statutory authority, is not included in the department's financial statements.

### **Super SA**

Super SA is a dedicated superannuation fund for South Australian public sector workers. They administer the following:

- Triple S Scheme
- Pension Scheme
- Lump Sum Scheme
- Income Stream
- Flexible Rollover Product
- SA Ambulance Service Superannuation Scheme
- Super SA Select
- Judges Pension Scheme
- Governors Pension Scheme
- Parliamentary Superannuation Scheme

The Super SA Board, the Southern Select Super Corporation and the Parliamentary Superannuation Board is responsible for managing these schemes in line with the relevant Acts and legislation, however funds are managed by Funds SA.

Super SA's dedicated superannuation fund is not included in the department's financial statements.

## The agency's performance

### Performance at a glance

The agency produced and published the 2022-23 Mid-Year Budget Review, and the 2023-24 Budget.

The agency provided advice to government on a broad range of economic and social policy matters, including the government's housing policies and approach to deliver on its commitments under the National Housing Accord and various cost of living relief measures.

The agency continues to contribute to a number of high priority reforms, including the University Merger, the state's first indigenous expenditure report, Closing the Gap, the Early Childhood Education Royal Commission and the introduction of three year-old preschool.

DTF has also contributed to government priority projects including advisory and financing support for the new Women and Children's Hospital, relocation of the SAPOL barracks away from the Adelaide Parklands to other locations, and the North-South Corridor Torrens to Darlington project.

In May 2023, the agency launched our new Stretch Reconciliation Action Plan. This is the work of many across the agency, and our first Stretch plan, which reflects our ongoing objective of embedding our reconciliation practices as business as usual within the department.

## Financial performance

### Financial performance at a glance

The following is a summary of the overall financial position of the agency. Full audited financial statements for 2022-2023 are attached to this report.

<b>Statement of Comprehensive Income</b>	<b>2022-23 Budget \$'000</b>	<b>2022-23 Actual \$'000</b>	<b>Variation \$'000</b>	<b>2021-22 Actual \$'000</b>
Total Income	252,037	263,898	11,861	302,929
Total Expenses	252,884	262,708	(9,824)	290,891
<b>Net Result</b>	<b>(847)</b>	<b>1,190</b>	<b>2,037</b>	<b>12,038</b>
<b>Total Comprehensive Result</b>	<b>(847)</b>	<b>1,190</b>	<b>2,037</b>	<b>12,038</b>

The 2022-23 comprehensive result of \$1.2 million is \$2.0 million higher than the budgeted deficit of \$0.08 million. This improvement primarily reflects higher income including reimbursement for SA Government grants, subsidies and transfers, various fees and charges and resources received free of charge compared to budget. These are partially offset by higher expenditure for temporary staff filling vacant positions, consultancy costs for various commercial projects and Super SA strategic transformation projects.

<b>Statement of Financial Position</b>	<b>2022-23 Budget \$'000</b>	<b>2022-23 Actual \$'000</b>	<b>Variation \$'000</b>	<b>2021-22 Actual \$'000</b>
Current assets	40,123	47,369	7,246	48,570
Non-current assets	61,337	52,736	(8,601)	65,636
<b>Total assets</b>	<b>101,460</b>	<b>100,105</b>	<b>(1,355)</b>	<b>114,206</b>
Current liabilities	38,006	34,177	3,829	42,331
Non-current liabilities	51,543	39,444	12,099	48,249
<b>Total liabilities</b>	<b>89,549</b>	<b>73,621</b>	<b>15,928</b>	<b>90,580</b>
<b>Net assets</b>	<b>11,911</b>	<b>26,484</b>	<b>14,573</b>	<b>23,626</b>
<b>Equity</b>	<b>11,911</b>	<b>26,484</b>	<b>14,573</b>	<b>23,626</b>

The department's actual net assets of \$26.5 million at 30 June 2023 is \$14.6 million higher than original budgeted outcome of \$11.9 million. This primarily reflects net assets transferred out to other areas of government due to machinery of government changes.

## Risk and audit at a glance

In 2022-23, DTF managed its risks using online systems and tools, conducted reviews in key areas of risk, and co-ordinated year-end assurance processes to support the preparation of DTF's financial statements. DTF's Risk and Performance Committee continued to provide high-level oversight of the Risk Management Framework and its implementation across the Department. In 2022-23 the Committee conducted oversight activities related to protective security and cyber risks, financial statements, audit, and internal controls.

## Fraud detected in the agency

Category/nature of fraud	Number of instances
Timesheet fraud	1

*NB: Fraud reported includes actual and reasonably suspected incidents of fraud.*

## Strategies implemented to control and prevent fraud

DTF is committed to:

- preventing, detecting, and controlling fraud, corruption, maladministration, and misconduct in connection with the Department's activities, and has a zero-tolerance approach to fraud, corruption, or other criminal conduct, maladministration, and misconduct.
- minimising the incidence of fraud and corruption through sound financial, legal, and ethical decision-making and organisational practices
- promoting the principles of honesty and integrity consistent with the Code of Ethics for the South Australian Public Sector.

DTF's Fraud and Corruption Policy and Control Framework outlines the Department's processes for preventing, detecting and responding to fraud.

DTF Branch Heads are responsible for ensuring adequate controls are in place to manage fraud risks, including identifying new risks and implementing further controls where identified. Assurance of the adequacy of these internal controls is provided by Branch Heads annually as part of DTF's year-end declaration process.

DTF's second line of defence monitoring programs, along with the internal audit plan reviews, provide reporting to the Risk and Performance Committee for oversight on the effectiveness of fraud controls and the implementation of recommended actions.

Detection, control, and prevention activities within DTF include:

- Disclosure by staff of suspected or actual fraudulent behaviour
- Reviews of transaction reports
- Reviews of management reports
- Data analysis – including continuous control monitoring
- Conflict of interest declarations
- Gifts and benefits declarations
- Employee screening
- Confidentiality arrangements
- Internal and external audits
- Appropriate segregation of duties
- Financial policies and procedures
- Post incident review of internal controls
- Financial Management Compliance Program (FMCP)
- Financial year-end declaration processes
- Mandatory fraud and corruption awareness training for new and existing employees.

## Service Improvements

In line with PC039- *Complaint Management in the South Australian Public Sector*, FERU conducted an annual assessment and ongoing monitoring of its performance and Complaint Management System. FERU received some positive compliments about service delivery and staff professionalism, which were encouraging. Complaints were received from clients regarding FERU's prescribed enforcement powers being actioned, in particular garnishing of bank accounts and the imposing of restrictions with the Registrar of Motor Vehicles. While improvements continue to be explored and implemented in providing self-service options to clients and providing clients with plain English information on FERU's enforcement powers, this continues to be a theme where clients are aggrieved by the application of legislated processes.

In early 2023, FERU experienced high call volumes which ultimately resulted in a higher number of complaints around service response times and wait times experienced by clients. FERU's complaints management system was reviewed and improved to ensure that all complaints were responded to within best practice and policy timeframes, and that all complaints around service delivery and response times were addressed as quickly as possible. FERU implemented a number of workforce strategies by taking action to increase capacity and meet the service expectations of the community and making significant improvements to the client self-service online portal including strengthening security with 2 factor authentication access.

The online self-service portal offers a range of services including adding a fine to an existing payment arrangement, updating contact details or making a general online enquiry for further assistance.

FERU's strategic direction continues to have a clear focus on striving to be part of a world class Treasury and Finance and providing professional, respectful and empathetic service and interactions to our clients, to ensure we maintain best practice client service delivery outcomes. These strategic goals include continuing to be the debt recovery provider of choice, ensuring we work in an efficient and effective way, maintaining a skilled and valued workforce, and having the right tools and best facilities for an efficient and responsive debt recovery service to meet expectations for both clients, and government.

## Service Improvements at Super SA

Implemented the new industry best-practice disputes resolution process on 1 July 2022, which better aligns to the Australian Securities and Investment Commission Dispute Resolution Regulatory Guide 271. The new process makes it easier for our Super SA members to raise a complaint, and imposes more stringent recording and reporting of complaints, including the identification of trends and systemic issues.

With the implementation of the new disputes resolution process, the Super SA Board set a key performance indicator to keep complaint numbers below 250 for the 2022-23 financial year, and this was achieved with 249 complaints received in the year.

Amendments were made to enhance the options available to eligible members, to provide flexibility to:

- choose their preferred superannuation fund (“Fund Selection”);
- rollover (all or part) of their Super SA account to another complying super fund whilst still employed with the SA Government (“Portability”); and
- direct their employer contributions from non- SA Government to Super SA in certain circumstances (“Limited Public Offer”).

Engagement of a new medical advisory service, to enhance the claims assessment and insurance process and reduce turnaround times.

Further revised the Board delegations to allow for a more simplified and streamlined payment process for smaller, or low risk payments, to improve response times.

Introduced rules and processes to enable the acceptance of electronic or digital signatures on instructions from members in particular (low-risk) circumstances, to streamline our processes and makes it simpler and easier for our members.

Made further improvements to the member online portal, to make it easier for members to register, while maintaining enhanced security measures.

Revised the communication option to ‘electronic’ as a default for all members who are registered with Member Portal, to provide faster and safer communication.

Updated the Annual Statements to communicate important information, including details around insurance premiums, the effect of low balance accounts on insurance, and the distribution of payments upon death.

Revised numerous communications, including forms and fact sheets to provide clearer information and instructions.

Improvements to a number of other communications, including confirmation to members who purchase insurance, or who are claiming insurance benefits, to pre-empt queries and reduce confusion.

## To the Under Treasurer Department of Treasury and Finance

### Opinion

I have audited the financial report of the Department of Treasury and Finance for the financial year ended 30 June 2023.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Department of Treasury and Finance as at 30 June 2023, its financial performance and its cash flows for year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2023
- a Statement of Financial Position as at 30 June 2023
- a Statement of Changes in Equity for the year ended 30 June 2023
- a Statement of Cash Flows for the year ended 30 June 2023
- notes, comprising material accounting policy information and other explanatory information
- a Statement of Administered Comprehensive Income for the year ended 30 June 2023
- a Statement of Administered Financial Position as at 30 June 2023
- a Statement of Administered Cash Flows for the year ended 30 June 2023
- a Schedule of Expenses and Income attributable to administered activities for the year ended 30 June 2023
- notes, comprising material accounting policy information and other explanatory information for administered items
- a Certificate from the Under Treasurer and the Director, Accounting and Information.

## **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Department of Treasury and Finance. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

## **Responsibilities of the Under Treasurer for the financial report**

The Under Treasurer is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Under Treasurer is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Under Treasurer is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

## **Auditor's responsibilities for the audit of the financial report**

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987*, I have audited the financial report of the Department of Treasury and Finance for the financial year ended 30 June 2023.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department of Treasury and Finance's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Under Treasurer
- conclude on the appropriateness of the Under Treasurer's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the Under Treasurer about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

## Notes to and forming part of the financial statements

### For the year ended 30 June 2023

---

#### 1. About the Department of Treasury and Finance

The Department of Treasury and Finance (the department) is a not-for-profit government department of the State of South Australia. The department is established pursuant to the *Public Sector Act 2009* as an administrative unit acting on behalf of the Crown.

The department does not control any other entity and has no interests in unconsolidated structured entities.

The financial statements and accompanying notes include all the controlled activities of the department.

Administered financial statements relating to administered resources are presented separately.

#### 1.1. Basis of preparation

The financial statements are general purpose financial statements prepared to comply with:

- section 23 of the *Public Finance and Audit Act 1987*;
- Treasurer's Instructions and Accounting Policy Statements issued by the Treasurer under the *Public Finance and Audit Act 1987*;
- relevant Australian Accounting Standards.

The financial statements are prepared on a 12 month reporting period and presented in Australian currency. All amounts in the financial statements and accompanying notes have been rounded to the nearest thousand dollars (\$'000). Any transactions in foreign currency are translated into Australian dollars at the exchange rate at the date the transaction occurs. The historical cost convention is used unless a different measurement basis is specifically disclosed in the note associated with the item measured.

Assets and liabilities to be sold, consumed or realised as part of the normal operating cycle have been classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

Significant accounting policies are set out throughout the notes.

The department is not subject to income tax. The department is liable for fringe benefits tax (FBT) and goods and services tax (GST).

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable;
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis, and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

**1.2. Objectives and programs**

**Objectives**

The department's objectives are to:

- promote sustainable state finances
- support responsible budget and financial management
- deliver timely high-quality services to meet the needs of our clients
- collaborate to deliver high-quality advice on economic, social and environmental issues
- provide procurement services.

During the year, the department administered a range of programs and services to support the prosperity and wellbeing of all South Australians.

**Programs**

In achieving its objectives for 2022-23, the department undertook the following programs:

***Accountability for Public Sector Resources***

The department ensures accountability for public sector resources through providing policy, economic, and financial advice to the government and coordinating resource allocations for Government programs and priorities at the whole-of-government level.

The department supports delivery of a range of key projects aimed at maximising commercial outcomes for government. These projects progress policy reforms and commercial initiatives for the economic benefit of the state.

***Treasury Services***

The department managed the government's financial assets and liabilities and provided certainty of funding to the state.

These services included:

- Administration of taxation legislation through the management of revenue and compliance systems, processes, policy advice and taxpayer education
- Administration of various government grant and subsidy schemes
- Provision of insurance cover to government agencies and advice and management of government risks
- Provision of fleet management services to agencies and vehicle disposal services to government
- Administration of various public sector superannuation schemes and provision of superannuation policy and legislative advice.

*For the year ended 30 June 2023*

---

**1.2. Objectives and programs (continued)**

***Government Services***

The department delivered a comprehensive range of services to various government agencies and the community.

These services included:

- Delivery of corporate services to various government agencies in the areas of accounts payable, accounts receivable, payroll, work injury services and finance
- Providing across government contracts for goods, services and information communications technology and specialist procurement advice and assistance
- Providing support services to members of parliament to assist them in meeting their responsibilities to the parliament and the broader community
- Providing a range of information and communication services to members of parliament, their staff and parliamentary support staff
- Management of overdue fines and expiations issued by authorities across South Australia, including court imposed pecuniary sums. The department also administers the recovery of Victims of Crime and Criminal Injury Compensation debts and recovery of civil (state) debts referred from state government entities.

***General/not attributable:*** Certain activities of the department are not allocated to programs.

The tables on the following pages present income, expenses, assets and liabilities attributed to each program.

**1.4. Budget performance (continued)**

**1 Supplies and services**

The \$24.3 million variation against the original budget mainly reflects higher costs associated with engaging temporary staff to backfill vacant positions across the department. Further contributing to the variation to budget was higher than budgeted expenditure associated with several Super SA strategic transformation projects funded by higher cost recovery from public sector superannuation schemes, expenditure on work relating to the Whole of Government Banking Transition project and higher than budgeted consultancy expenditure associated with various projects in Commercial and Economics branch which will maximise commercial outcomes for government.

**1.5. Significant transactions with government related entities**

Significant transactions with government related entities are identifiable throughout this financial report. All lease payments relate to motor vehicles supplied by Fleet SA.

Appropriations are recognised on receipt.

This table does not show appropriations in the form of a loan or an equity contribution.

Appropriation pursuant to the *Appropriation Act* consist of \$164 million (2022: \$175 million) for operational funding and \$4.2 million (2022: \$1.8 million) for capital projects. This appropriation comprises money issued and applied to the department as per Schedule 1 of the Act, varied pursuant to section 5 of the Act for changed functions and duties of the department (refer to note 1.3 for details of these transferred functions).

Other recoveries	1 896	2 467
<b>Total fees and charges</b>	<b>82 513</b>	<b>116 595</b>

All revenue from fees and charges is revenue recognised from contracts with customers except for the ReturnToWorkSA prescribed fee, South Australian Superannuation Board recoveries, South Australian Government Financing Authority recoveries, and other recoveries.

The department measures revenue based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. All revenue is recognised at a point in time.

The department recognises revenue from the following major sources:

**ReturnToWorkSA – prescribed fee:** ReturnToWorkSA collects the Workplace Health and Safety fee on SafeWork SA's behalf. This fee is added to the ReturnToWorkSA premium and contributes to costs associated with the government's work health and safety activities. No fees collected by Safework SA in 2022-23 due to transfer to Attorney-General's Department as per Note 1.3.

**Regulatory fees:** Safework SA issues licences and registrations to businesses and members of the public. Licence and registration fees and charges are subject to the government's annual review of regulatory fees and charges and are of low value. Accordingly, the department has elected to recognise the revenue at the point in time the licence/registration is issued and paid. No fees collected by Safework SA in 2022-23 due to transfer to Attorney-General's Department as per Note 1.3.

**Services** are provided to South Australian government agencies. This includes whole of government contract management (e.g. electricity, banking) and non-service level agreement transactional services provided by Shared Services SA (e.g. targeted voluntary separation package calculations). Revenue from these services is recognised on a time-and-material basis as services are provided. Any amounts remaining unpaid at the end of the reporting period are treated as accounts receivable.

**Administration fee – Community Emergency Services Fund (CESF):** Revenue SA charges the CESF an administration fee to administer the fixed property component of the emergency services levy. Administration fee revenue is recognised at the point in time as the performance obligation is discharged, which is once the services are provided.

The total remuneration received by those employees for the year was \$13.4 million (2022: \$17.9 million).

The table includes all employees who received remuneration equal to or greater than the base executive remuneration level during the year. Remuneration of employees reflects all costs of employment including salaries and wages, payments in lieu of leave, superannuation contributions, termination payments, salary sacrifice benefits and any related fringe benefits tax.

**Targeted voluntary separation packages (TVSPs)**

The number of employees who received a TVSP during the reporting period was 55 (2022: 70).

<b>Total non-current employee benefits</b>	<b>25 346</b>	<b>30 872</b>
<b>Total employee benefits</b>	<b>42 401</b>	<b>50 496</b>

Employee benefits accrue as a result of services provided up to the reporting date that remain unpaid. Long-term employee benefits are measured at present value and short-term employee benefits are measured at nominal amounts.

**Salaries and wages, annual leave, skills and experience retention leave (SERL) and sick leave**

The liability for salaries and wages is measured as the amount unpaid at the reporting date at remuneration rates current at reporting date.

The annual leave liability and the SERL liability is expected to be payable within 12 months and is measured at the undiscounted amount expected to be paid.

The salary inflation rate for annual leave and skills, experience and retention leave liability has increased from 1.5% (2022) to 2.0% (2023). This change had an immaterial net financial effect in the current financial year.

No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees is estimated to be less than the annual entitlement for sick leave.

**Long service leave liability – measurement**

The liability for long service leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

AASB 119 *Employee Benefits* describes the calculation methodology for long service leave liability.

The actuarial assessment performed by the department has provided a basis for the measurement of long service leave and is based on actuarial assumptions for expected future salary and wage levels, experience of employee departures, and periods of service. These assumptions are based on employee data over SA Government entities.

AASB 119 requires the use of the yield on long-term Commonwealth Government bonds as the discount rate in the measurement of the long service leave liability. The yield on long-term Commonwealth Government bonds has increased from 3.5% (2022) to 4% (2023).

This increase in the bond yield, which is used as the rate to discount future long service leave cash flows results in a decrease in the reported long service leave liability.

The actuarial assessment performed by the department has increased the salary inflation rate from 2.5% (2022) to 3.5% (2023) for long service leave liability.

The net financial effect of the changes to actuarial assumptions in the current financial year is a decrease in the long service leave liability of \$0.8 million and employee benefits expense of \$0.8 million. The impact on future periods is impracticable to estimate as the long service leave liability is calculated using a number of demographic and financial assumptions – including the long-term discount rate.

**5.1. Property, plant and equipment owned by the Department (continued)**

Property, plant and equipment with a value equal to or in excess of \$10 000 is capitalised, otherwise it is expensed. Property, plant and equipment is recorded at fair value. Note 10.1 describes the department's approach to fair value.

\$3.548 million of fully depreciated property, plant and equipment is still in use.

**Impairment**

Property, plant and equipment owned by the department has not been assessed for impairment as they are non-cash generating assets, specialised in nature, and held for continual use of their service capacity.

Revaluation of property, plant and equipment is undertaken on a regular cycle as described in note 10.1. If at any time management considers the carrying amount of an asset materiality differs from its fair value, then the asset will be revalued regardless of when the last revaluation took place.

**5.2. Property, plant and equipment leased by the department**

Right-of-use assets for property, plant and equipment leased by the department as lessee are measured at cost and there were no indications of impairment.

The department has 183 motor vehicle leases with the South Australian Government Financing Authority (SAFA). Motor vehicle leases are non-cancellable, with rental payments monthly in arrears. Motor vehicle lease terms can range from 3 years (60,000km) up to 5 years (100,000km). No variable lease payments are provided for in the lease agreements and no options exist to renew the leases at the end of their term.

Short term leases of 12 months or less and low value leases, where the underlying asset value is less than \$15,000, are not recognised as right-of-use assets. The associated lease payments are recognised as an expense and included in note 4.1.

The lease liabilities and interest expenses related to the right-of-use assets are disclosed in note 7.2. The department's maturity analysis of the lease liabilities is disclosed in note 7.2. Depreciation is disclosed at note 5.1. Cash outflows related to leases are disclosed in note 8.2.

**5.3. Depreciation and amortisation**

All non-current assets, with a limited useful life, are systematically depreciated/amortised over their useful lives in a manner that reflects the consumption of their service potential.

**Useful life**

Depreciation and amortisation are calculated on a straight-line basis over the estimated remaining useful life of the following classes of assets as follows:

<b>Class of asset</b>	<b>Useful life (years)</b>
Buildings	4-69
Building fitouts	1-13
Plant and Equipment	1-7
Internally developed computer software	2-15
Externally acquired computer software	5
Right-of-use assets	Lease term

**Review of accounting estimates**

Assets' residual values, useful lives, and amortisation methods are reviewed and adjusted, if appropriate, on an annual basis. Changes in the expected life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the time period or method, as appropriate.

**5.4. Intangible assets**

Intangible assets are initially measured at cost and are tested for indications of impairment at each reporting date. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and any accumulated impairment losses.

The acquisition of or internal development of computer software is capitalised only when the expenditure meets the definition and recognition criteria, and when the amount of expenditure is greater than or equal to \$10 000.

**6. Financial assets**

**6.1. Cash and cash equivalents**

	2023	2022
	\$'000	\$'000
Deposits with the Treasurer		
Operating account	19 728	16 824
Accrual appropriation excess funds account	9 705	6 975
<b>Total deposits with the Treasurer</b>	<b>29 433</b>	<b>23 799</b>
Cash on hand	-	43
<b>Total cash and cash equivalents</b>	<b>29 433</b>	<b>23 842</b>

Although the department controls the funds reported above in the accrual appropriation excess funds account, the Treasurer must approve its use. The department does not earn interest on its deposits with the Treasurer.

**6.2. Receivables**

	2023	2022
	\$'000	\$'000
<b>Current</b>		
Trade receivables	2 349	6 858
Accrued revenues	11 459	11 579
Prepayments	2 855	5 568
Net GST receivable from the ATO	1 273	723
<b>Total current receivables</b>	<b>17 936</b>	<b>24 728</b>
<b>Non-current</b>		
Receivables	180	249
<b>Total non-current receivables</b>	<b>180</b>	<b>249</b>
<b>Total receivables</b>	<b>18 116</b>	<b>24 977</b>

Trade receivables arise in the normal course of selling goods and services to other government agencies and to the public. Trade receivables are normally settled within 30 days after the issue of an invoice or the goods/services have been provided under a contractual arrangement.

The carrying amount of receivables approximates net fair value due to being receivable on demand. There is no concentration of credit risk. Refer to note 10.2 for further information on risk management.

The net amount of GST receivable from the ATO is included as part of receivables.

Receivables, prepayments and accrued revenues are non-interest bearing. Receivables are held with the objective of collecting the contractual cash flows and they are measured at amortised cost.

The expected credit loss for receivables relating to contracts with SA government entities (as the customer) is considered to be nil based on the nature and credit rating of the SA government entities (as the counterparty to the transaction).

Impairment losses relate to receivables arising from contracts with customers that are external to SA Government. No impairment loss was recognised in 2023 in relation to statutory receivables as all were with South Australian government debtors.

**7. Liabilities**

**7.1. Payables**

	2023	2022
	\$'000	\$'000
<b>Current</b>		
Trade payables	477	233
Accrued expenses	11 614	17 006
Employment on-costs	2 604	2 809
Paid Parental Leave Scheme payable	23	13
Other current payables	-	187
<b>Total current payables</b>	<b>14 718</b>	<b>20 248</b>
<b>Non-current</b>		
Employment on-costs	2 532	3 055
<b>Total non-current payables</b>	<b>2 532</b>	<b>3 055</b>
<b>Total payables</b>	<b>17 250</b>	<b>23 303</b>

Payables are measured at nominal amounts.

Payables and accruals are recognised for all amounts owing but unpaid. Sundry payables are normally settled within 30 days from the date the invoice is first received. All payables are non-interest bearing. The carrying amount of payables represents fair value due to their short-term nature.

The net amount of GST recoverable from the ATO is included as part of receivables. However, if a net GST payable arises then this amount would be disclosed in this payable note.

**Employment on-costs**

Employment on-costs include payroll tax, ReturnToWorkSA levies and superannuation contributions and are settled when the respective employee benefits they relate to are discharged. These on-costs primarily relate to the balance of leave owing to employees. Estimates as to the proportion of long service leave estimated to be taken as leave, rather than paid on termination, affects whether certain on-costs are recognised as a consequence of long service leave liabilities.

The department contributes to several state government and externally managed superannuation schemes. These contributions are treated as an expense when they occur. There is no liability for payments to beneficiaries as they have been assumed by the respective superannuation schemes. The only liability outstanding at reporting date relates to any contributions due but not yet paid to the superannuation schemes.

As a result of an actuarial assessment performed by the department, the portion of long service leave taken as leave has increased from 42% in 2022 to 43% in 2023 and the average factor for the calculation of employer superannuation on-costs has changed from the 2022 rate (10.6%) to 11.1%. These rates are used in the employment on-cost calculation. The net financial effect of the changes in the current financial year is an increase in the employment on-cost of \$96 000 and employee benefits expense of \$96 000. The impact on future periods is impracticable to estimate.

**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2023*

**7.2. Financial liabilities**

The department's financial liabilities are lease liabilities.

A maturity analysis of financial liabilities based on undiscounted gross cash flow is reported in the table below:

	<b>2023</b>	<b>2022</b>
<b>Financial Liabilities</b>	<b>\$'000</b>	<b>\$'000</b>
1 to 3 years	1 158	1 194
3 to 5 years	-	14
<b>Total financial liabilities (undiscounted)</b>	<b>1 158</b>	<b>1 208</b>

Lease liabilities have been measured by discounting lease payments using either the interest rate implicit in the lease where it is readily determined or the department's incremental borrowing rate. There were no defaults or breaches on any of the financial liabilities throughout the year.

Borrowing costs associated with these lease liabilities was \$25 000 (2022: \$10 000).

**7.3. Provisions**

All provisions relate to workers compensation.

	<b>2023</b>	<b>2022</b>
<b>Reconciliation of workers compensation (statutory and non-statutory)</b>	<b>\$'000</b>	<b>\$'000</b>
<b>Carrying amount at the beginning of the period</b>	9 877	11 571
Payments/other sacrifices of future economic benefits	(1 481)	(894)
Additional provisions recognised	(799)	(800)
<b>Carrying amount at the end of the period</b>	<b>7 597</b>	<b>9 877</b>

The department is responsible for the payment of workers compensation claims.

The department is an exempt employer under the *Return to Work Act 2014*. Under a scheme arrangement, the department is responsible for the management of workers rehabilitation and compensation and is directly responsible for meeting the cost of workers' compensation claims and the implementation and funding of preventative programs.

Accordingly, a liability has been reported to reflect unsettled workers compensation claims for both statutory and additional compensation schemes.

The workers compensation is based on an actuarial assessment of the outstanding liability as at 30 June 2023 provided by a consulting actuary engaged through the Office of the Commissioner for Public Sector Employment.

The additional compensation scheme provides continuing benefits to workers who have suffered eligible work-related injuries and whose entitlements have ceased under the statutory workers compensation scheme. Eligible injuries are nonserious injuries sustained in circumstances which involved, or appeared to involve, the commission of a criminal offence, or which arose from a dangerous situation.

There is a significant degree of uncertainty associated with estimating future claim and expense payments and also around the timing of future payments due to the variety of factors involved. The liability is impacted by agency claim experience relative to other agencies, average claim sizes and other economic and actuarial assumptions.

In addition to these uncertainties, the additional compensation scheme is impacted by the limited claims history and the evolving nature of the interpretation of, and evidence required to meeting, eligibility criteria. Given these uncertainties, the actual cost of additional compensation claims may differ materially from the estimate.

**8. Other disclosures**

**8.1. Equity**

The asset revaluation surplus is used to record increments and decrements in the fair value of property and plant and equipment to the extent that they offset one another. Relevant amounts are transferred to retained earnings when an asset is derecognised.

**8.2. Cash flow reconciliation**

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

**9.2. Contingent assets and liabilities**

Contingent assets and contingent liabilities are not recognised in the Statement of Financial Position, but are disclosed by way of a note and, if quantifiable, are measured at nominal value.

The department is not aware of any contingent assets or liabilities.

**9.3. Impact of standards and statements not yet effective**

The Department of Treasury and Finance has assessed the impact of the new and amended Australian Accounting Standards and Interpretations not yet effective and does not expect these to have a material impact on the Department of Treasury and Finance's financial statements.

**9.4. Events after the reporting period**

There were no events occurring after the end of the reporting period that had a material financial implication on these financial statements.

**10. Measurement and risk**

**10.1. Fair value**

AASB 13 *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, in the principal or most advantageous market, at the measurement date.

**Initial recognition**

Non-current tangible assets are initially recorded at cost or at the value of any liabilities assumed, plus any incidental cost involved with the acquisition.

Where assets are acquired at no value, or minimal value, they are recorded at fair value in the Statement of Financial Position. However, if the assets are acquired at no or nominal value as part of a restructure of administrative arrangements, then the assets are recognised at book value (i.e. the amount recorded by the transferor public authority immediately before the restructure).

**Revaluation**

Property, plant and equipment are subsequently measured at fair value after allowing for accumulated depreciation.

Non-current tangible assets are valued at fair value and revaluation of non-current assets or a group of assets is only performed when the fair value at the time of acquisition is greater than \$1.5 million and estimated useful life is greater than three years.

Revaluation is undertaken on a regular cycle. If at any time management considers the carrying amount of an asset materially differs from its fair value, then the asset will be revalued regardless of when the last valuation took place.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amounts of the assets and the net amounts are restated to the revalued amounts of the asset.

**Fair value hierarchy**

The department classifies fair value measurement using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements, based on the data and assumptions used in the most recent revaluation:

- Level 1 – traded in active markets and is based on unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at measurement date.
- Level 2 – not traded in an active market and are derived from inputs (inputs other than quoted prices included within level 1) that are observable for the asset, either directly or indirectly.
- Level 3 – not traded in an active market and are derived from unobservable inputs.

The department's policy is to recognise transfers into and out of fair value hierarchy levels as at the end of the reporting period. All non-financial assets as at 30 June 2023 and 30 June 2022 were categorised in level 3 except level 2 land.

**Land, buildings and building fitout**

An independent valuation of land, buildings and building fitouts owned by the department was performed in June 2021 by independent certified practising valuers.

Fair value of the land has been determined using the market approach. The valuation was based on the recent market transactions for similar land in the area and includes adjustment for factors specific to the land such as size and location. For land classified as restricted in use, fair value was determined by applying and adjusting to reflect the restriction.

The fair values of buildings were determined using current replacement cost, due to there not being an active market. The current replacement cost considered the need for ongoing provision of government services, specialised nature and restricted use of assets, their size, condition and location.

**Department of Treasury and Finance**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2023*

---

**10.1. Fair value (continued)**

**Plant and equipment**

All items of plant and equipment owned by the department which had a fair value at the time of acquisition less than \$1.5 million or had an estimated useful life less than three years have not been revalued. The carrying value of these items is deemed to approximate fair value.

**10.2. Financial instruments**

**Financial risk management**

The department's risk management policies are in accordance with the *South Australian Risk Management Guide* and the principles established in the *Australian Standard Risk Management Principles and Guidelines*.

The department's exposure to financial risk (liquidity risk, credit risk, and market risk) is low due to the nature of the financial instruments held.

**Liquidity risk**

The department is funded principally from appropriation by the Government of South Australia. The department determines the cash flows associated with its government approved program of work and to ensure funding is provided through the Government of South Australia budgetary processes to meet the expected cash flows.

Refer to notes 7.1 and 7.2 for further information.

**Credit risk**

The department has policies and procedures in place to ensure it transacts with customers with appropriate credit history.

No collateral is held as security and no credit enhancements relate to financial assets held by the department.

**Cash and debt investments**

The department considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties and therefore the expected credit loss is nil.

All of the department's debt investments at amortised cost are considered to have low credit risk and the consideration of expected credit loss was limited to 12 months expected losses. The expected credit loss is nil.

**Market risk**

The department does not trade in foreign currency, nor enter into transactions for speculative purposes, nor for hedging. The department does not undertake any hedging in relation to interest or foreign currency risk and manages its risk according to the government's risk management strategy articulated in TI 23 *Management of Foreign Currency Exposures*.

**Categorisation of financial instruments**

Details of the significant accounting policies and methods adopted including the criteria for recognition, the basis of measurement, and the basis on which income and expenses are recognised with respect to each class of financial asset, financial liability and equity instrument are disclosed in the respective financial asset / financial liability notes.

**Classification of financial instruments**

The department measures all financial instruments at amortised cost.

**A1. About the department's Administered Items**

The basis of preparation of the administered financial statement is the same as the basis outlined in note 1.1. The department applies the same accounting policies to the administered financial statements as set out in the notes to the department's financial statements.

**A1.1. Overview of Administered financial statements**

The administered financial statements include the incomes, expenses, assets and liabilities which the department administers on behalf of the Government of South Australia but does not control. All administered activities and the transactions for the special deposit accounts established under section 8 of the *Public Finance Audit Act (PFAA) 1987* and deposit accounts established under section 21 of the PFAA that are administered by the department are described below:

***Administered Items on behalf of the Consolidated Account***

The purpose of the account is to record a number of revenue and expense transactions on behalf of the Government of South Australia for the Consolidated Account. Such transactions include the collection of revenues from taxation, revenues from the Commonwealth Government, dividends and interest. The expense transactions include transfers to agencies for employee entitlements and supplies and services; grants and subsidies to public sector agencies; the private sector and the community; and the transfer of revenues to the Consolidated Account. The associated Statement of Financial Position items for the Consolidated Account such as loans and borrowings are recognised in the whole-of-government general purpose financial report.

***Affordable Housing Fund***

The purpose of the fund is to record all financial transactions of the Fund, including the receipt of revenue, granting and payment of loans to HomeStart Finance as well as the specific accounting disclosures required for concessional loan agreements.

***Commonwealth Funding for National Partnerships***

The purpose of the fund is to receive, hold and disburse certain monies for major infrastructure projects provided from National Partnerships grants received from the Commonwealth.

***Commonwealth Mirror Taxes on Commonwealth Places Revenue Account***

The purpose of the account is to receive amounts that are levied pursuant to the *Commonwealth Places (Mirror Taxes) Act 1998* of the Commonwealth and *Commonwealth Places (Mirror Taxes Administration) Act 1999* of the State.

***Community Development Fund***

The purpose of the fund is to administer annual payments under the *Gaming Machines Act 1992*. Payments are made in accordance with the directions of the Governor towards financial assistance for non-government welfare agencies, financial assistance for community development and the provision of government health, welfare or education services, as well as towards programs of benefit to the live music industry.

***Community Emergency Services Fund***

The purpose of the fund is to record all fixed property revenue from the Emergency Services Levy collected by RevenueSA and transferred to the Community Emergency Services Fund administered by the South Australian Fire and Emergency Services Commission.

---

**A1.1. Overview of Administered financial statements (continued)**

***Country Equalisation Scheme Account***

The purpose of the account is to record injections of funds provided from the Consolidated Account, and to make refund payments<sup>1</sup> to electricity retailers in accordance with the Country Equalisation Scheme.

***ETSA Sales / Lease Proceeds Account***

The purpose of the account is to receive proceeds of a sale/lease agreement, sale or lease under the *Electricity Corporations (Restructuring and Disposal) Act 1999* and other funds as approved by the Treasurer.

***Fines Enforcement and Recovery***

The purpose of this account is to record all monies recoverable by the Chief Recovery Officer under the *Fines Enforcement and Debt Recovery Act 2017* and the monies are payable to parties defined in legislation or an administrative determination. The account does not receive monies payable to the Consolidated Account but to third parties.

***Hospitals Fund***

The purpose of the fund is to record and transfer monies received from SA Lotteries Commission operations in accordance with the *State Lotteries Act 1966* and stamp duty on insurance policies relating to motor vehicles in accordance with *Stamp Duties Act 1923* to the Consolidated Account to be used for the maintenance, development and improvement of public hospitals.

***Intergovernmental Agreement on Federal Financial Relations***

The purpose of the account is to receive and disburse money paid to the State Treasury in accordance with the Intergovernmental Agreement on Federal Financial Relations, where that money is not receipted directly to the Consolidated Account.

***Industrial Tribunal Payments into Court***

This is to record payments and receipts relating to South Australian Employment Tribunal judgements. This account transferred to the Attorney-General's Department effective 1 July 2022 as per Note A1.3.

***Industry Financial Assistance Account (IFAA)***

The account was established to assist with the accounting for the industry assistance contracts written in the name of the Treasurer. The South Australian Government Financing Authority (SAFA) is responsible for administering the IFAA on behalf of the Treasurer.

***Local Government Disaster Fund***

The purpose of the fund is to record the cost of providing assistance to local authorities which face unusually high expenditures as a result of natural disasters. Assistance may be of an investigative, preventative, remedial, insurance, compensatory or other nature and may include funding of insurance or other commercial schemes.

***Local Government Taxation Equivalents Fund***

The account was established to record receipts of tax equivalents from the Local Government Finance Authority (LGFA) and payments to the Local Government Association of South Australia as stipulated under the *Local Government Finance Authority Act 1983*.

**A1.1. Overview of Administered financial statements (continued)**

***Market Projects Unit***

The purpose of the account is to receive deposits from the sale of government assets.

***Scope Global Shares***

The purpose of this fund is to record all financial transactions associated with the Treasurer's financial interest in Scope Global Pty Ltd that transferred to the Treasurer in 2018-19.

***Support Services to Parliamentarians***

The purpose of the account is to record the financial transactions related to the administration of Support Services to Parliamentarians.

***SuperSA Select\****

The purpose of the account is to administer receipts and payments for the Commonwealth Low Income Superannuation Contribution.

***State Owned Generators Leasing Co. Pty. Ltd. (SOGLC)***

The purpose of the fund is to record the Treasurer's shareholding in the State Owned Generators Leasing Company Pty Ltd.

***Treasury and Finance Administered Items Account***

The purpose of the account is to receive administered items appropriation for the department pursuant to the annual *Appropriation Act* and to disburse the associated payments.

***Treasurer's Interest in the National Wine Centre Account***

The purpose of the account is to record all the financial transactions associated with the management of the *National Wine Centre (Restructuring and Leasing Arrangements) Act 2002* including injections of funds from the Consolidated Account.

***Treasury Working Account***

The purpose of the account is to record receipts and payments for small lotteries, receipts and payments arising from various superannuation arrangements, interest receipts and payments, to effect accounting adjustments and transfers and to hold amounts in suspense pending determination of appropriate treatment. This account is also used to process *certain* transactions of a whole of government nature or relating to the activities of the Treasurer.

***Treasury Asset Management Account***

The purpose of the account is to record all financial transactions associated with the former South Australian Asset Management Corporation (SAAMC) and the dissolution of the SAAMC Board.

\*Deposit account and special deposit accounts with no transactions in the Statement of Comprehensive Income are not included in the disaggregated disclosure schedule.

**A1.2. Changes to the Department of Treasury and Finance's administered items**

**Transferred out**

As a result of administrative arrangements described in the Government Gazette on 30 June 2022, the South Australian Employment Tribunal transferred from the department to the Attorney-General's Department.

The effective date of the transfer was 1 July 2022.

The following assets and liabilities were transferred out:

	<b>\$'000</b>
<b>Current assets</b>	
Cash and cash equivalents	2
Receivables	13
<b>Total current assets</b>	<u>15</u>
<b>Total assets</b>	<u>15</u>
<b>Current liabilities</b>	
Payables	212
Employee benefits	1 212
<b>Total current liabilities</b>	<u>1 424</u>
<b>Total liabilities</b>	<u>1 424</u>
<b>Total net assets transferred</b>	<u>(1 409)</u>

Net assets transferred by the department because of the administrative restructure were recognised at the carrying amount. The net assets transferred were treated as a distribution to the government as owner.

**A1.3. Budget performance (continued)**

Explanations are provided for variances where the variance exceeds the greater of 10% of the original budgeted amount and 5% of original budgeted total expenses.

The following are brief explanations of variances between original budget and actual amounts. Explanations are provided for variances where the variance exceeds the greater of 10 per cent of the original budgeted amount and 5 per cent of original budgeted total expenses.

**1 Commonwealth revenues**

The \$4.133 billion variation against the original budget is primarily due to the actual funding from the Commonwealth for Intergovernmental Agreement on Federal Financial Relations (\$3.570 billion) being recorded in the Statement of Administered Comprehensive Income while the associated budget is disclosed as part of the Statement of Cash Flows for Other Accounts which does not form part of the Statement of Administered Comprehensive Income original budget amount.

South Australia's share of the GST pool also increased resulting in additional GST revenue grants (\$0.520 billion).

**2 Grants, subsidies and transfers**

The \$1.331 billion variation against original budget is primarily due to payments to agencies (\$3.432 billion) in relation to the Intergovernmental Agreement on Federal Financial Relations being recorded in the Statement of Administered Comprehensive Income while the associated budgets are disclosed as part of the Statement of Cashflows for Other Accounts.

The original grants, subsidies and transfers budget includes an amount for the repayment of advances (\$0.419 billion) while the actual transactions are treated as income in the Statement of Administered Comprehensive Income.

These variations are offset by the original budget amount including the Consolidated Account deficit expense while the associated actual is reported in the Treasurer's Statements - Statement A (\$3.070 billion).

**3 Payments to SA Government**

The \$1.832 billion variation against the original budget is due to increased payments for the transfer of revenue received on behalf of the Consolidated Account resulting from additional income primarily for taxation and Commonwealth revenues and other revenues for the return of surplus cash by agencies in accordance with the cash alignment policy.

**A1.4. Significant transactions with government related entities**

Significant transactions with the government related entities are identifiable throughout this financial report, all lease payments relate to motor vehicles supplied by Fleet SA.

**A2.2 Taxation (continued)**

Taxation revenue includes payroll tax, stamp duty, betting operations tax, property taxes (land tax and emergency services levy), income tax equivalents and contributions from the Lotteries Commission of South Australia. All taxes and levies are collected on behalf of the state government and recognised on receipt. All taxation and levy revenues are reported net of any refunds issued.

Payroll tax is payable pursuant to the *Payroll Tax Act 2009*.

Stamp duty is a charge on certain instruments. Stamp duty is charged at either a flat rate or an *ad valorem* rate (based on the value of the transaction) depending on the particular document or transaction. Stamp duty applies to a range of instruments including conveyances, motor vehicles transfers and insurance transactions. Stamp Duty is levied under the authority of the *Stamp Duties Act 1923*, which is supported by the *Stamp Duties Regulations 2002*.

Land tax is charged on land ownership and calculated according to the site value. The land owner is exempt from land tax where the land constitutes the owner's principal place of residence, conditions apply (other exemptions also apply based on land use).

As a result of changes to the *Casino Act 1997* and Casino Agreements the Commissioner of State Taxation commenced administration and collection of the Casino Duty from 1 January 2014. This includes all duty from gaming tables and gaming machines within the Adelaide Casino.

Betting operations tax is effective from 1 July 2017. It is a consumption tax of 15% on the Net Wagering Revenue (NWR) of betting companies offering services to South Australia.

The department also collects the fixed property component of emergency services levy payable under the *Emergency Services Funding Act 1998*.

Tax equivalents are collected from applicable public authorities or business units in accordance with *Treasurer's Instruction 22 'Tax Equivalent Payments'*. Tax equivalent payments calculated and collected include Accounting Profits Method at the companies' income tax rate under the *Commonwealth's Income Tax Assessment Act 1997*, *Land Tax and Local Government Rates*.

Contributions from the Lotteries Commission of South Australia include distributions to the Hospitals Fund received in accordance with the *State Lotteries Act 1966*.

<b>Total Commonwealth revenues</b>	<b>11 736 490</b>	<b>10 699 448</b>

Commonwealth revenue includes GST grants, Specific Purpose Payments and National Partnership Payments received from the Commonwealth pursuant to the Intergovernmental Agreement on Federal Financial Relations.

Specific Purpose Payments can either be ongoing tied grants or time-limited National Partnership payments (NPPs) and Project Agreements (PAs).

National Partnership Payments are time limited agreements associated with the relevant federal financial agreement, to fund specific projects and to facilitate or reward the states that deliver national significant reforms. Funding can be for both recurrent and capital purposes.

**Commonwealth grants**

Income from Commonwealth grants is recognised when the department obtains control over the granted assets (eg cash), unless the grant is a capital grant to acquire/construct recognisable non-financial assets. All Commonwealth grants are accounted for under AASB 1058 as the arrangements with the Commonwealth do not constitute contracts with customers.

GST revenue is general revenue assistance provided by the Commonwealth in accordance with the principles of horizontal fiscal equalisation under the Intergovernmental Agreement on Federal Financial Relations that may be spent for any purpose. The GST revenue is received monthly.

Specific Purpose payments and the National Partnership Payments are typically received when the state completes each milestone stipulated in the contract agreement and or/ its schedule and submits the performance report for the completed milestones by the due dates to the Commonwealth.

**Commonwealth capital grants to acquire/construct recognisable non-financial assets**

Income from Commonwealth capital grants to acquire or construct a recognisable non-financial asset to be controlled by the state is recognised as the non-financial assets are being constructed. The recognition of revenue is in proportion with the expenditure on the asset, as this best represents the satisfaction of the state's obligation to acquire/construct the assets under the agreements. Grants to acquire or construct recognisable non-financial assets primarily relate to Commonwealth funding received for construction or upgrade of transport and road infrastructure assets.

<b>Total employee benefits expenses</b>	<b>422 309</b>	<b>446 067</b>

\*These payments were made to support funding of the defined benefit superannuation liability for the Police Superannuation Scheme and the South Australia Superannuation Fund as part of the government's commitment to have all superannuation liabilities fully funded by 2034.

**Employment on-costs - superannuation**

The superannuation employment on-cost charge represents the department's contributions to superannuation plans in respect of current services of current employees.

**Employee and judicial officers remuneration**

The number of officers, including judicial officers, whose remuneration received or receivable falls within the following bands:	<b>2023</b>	<b>2022</b>
	<b>Number</b>	<b>Number</b>
\$180 001 - \$200 000	1	-
\$200 001 - \$220 000	-	1

\$640 001 - \$660 000	-	1
<b>Total number of employees and judicial officers</b>	<b>1</b>	<b>7</b>

The total remuneration received by those employees and officers for the year was \$180 000 (2022: \$3.6 million). The judicial officers transferred to Attorney-General's Department as per Note A1.3.

The table includes all employees who received remuneration equal to or greater than the base executive remuneration level during the year. Remuneration of employees reflects all costs of employment including salaries and wages, payments in lieu of leave, superannuation contributions, termination payments, salary sacrifice benefits and any related fringe benefits tax paid.

<b>Total non-current employee benefits</b>	<b>941</b>	<b>1 490</b>
<b>Total employee benefits</b>	<b>2 232</b>	<b>3 074</b>

**Long service leave liability measurement**

The net financial effect of the changes in the financial year described in note 3.4 is a decrease in the long service leave liability of \$45 200 (2022: \$50 000) and employee benefits expense of \$45 200 (2022: \$50 000). The impact on future periods is impracticable to estimate as the long service leave liability is calculated using a number of assumptions - a key assumption is the long-term discount rate.

	<b>2023</b>	<b>2022</b>
	<b>\$'000</b>	<b>\$'000</b>
Interest on borrowings	685 895	317 860
Interest paid on deposit accounts and other monies	46 712	466
<b>Total borrowing costs</b>	<b>732 607</b>	<b>318 326</b>

The department administers payment of interest on borrowings on behalf of the Treasurer but the debt is not recorded in the Statement of Administered Financial Position. Treasurer's borrowings are disclosed in Statement J of the Treasurer's Statements and the government's annual consolidated financial report.

Borrowing costs include annual interest charges on the Treasurer's borrowings from South Australian Government Financing Authority and interest paid by the Treasurer on agency deposit and special deposit accounts. The increase in borrowing costs is mainly due to higher interest rates.

Interest is paid from the Treasury and Finance Administered Items special deposit account using funds appropriated for that purpose. While the department administers these payments on behalf of the Treasurer, the underlying loan arrangements are administered by South Australian Government Financing Authority and are therefore not included in the Statement of Administered Financial Position.

Further information on borrowings undertaken by the Treasurer for the Government of South Australia and other government financial assets and liabilities can be found in the South Australian Government Financing Authority annual report and the Consolidated Financial Report for the Government of South Australia prepared under AASB 1049 *Whole of Government and Government Sector Financial Reporting*.

<b>Total grants, subsidies and transfers</b>	<b>4 986 331</b>	<b>4 984 201</b>

Grants, subsidies, and transfers mainly reflect the transfer of Commonwealth funding received pursuant to the Intergovernmental Agreement on Federal Financial Relations (IAFFR) to relevant government agencies. Also included are the payment of grants and other contributions approved by the Treasurer using appropriation funding provided to the Treasury and Finance administered items account. Grants, subsidies and transfers are recognised when paid.

The Treasurer held promissory notes on behalf of the Local Government Disaster Fund where the cash balance of the fund was not immediately required to fund Local Government costs relating to disasters. It was invested with the Local Government Finance Authority of South Australia for periods of three months. Promissory notes earned interest at their respective promissory note rates. This amount was not reinvested upon maturity during 2022-23 in order to ensure funding availability to meet anticipated claims for financial assistance from local governments resulting from recent significant natural disaster events.

**Unearned revenue**

In 2003 the Treasurer agreed to lease to the University of Adelaide over a forty year period the land and buildings previously owned by the National Wine Centre. The agreement's upfront consideration of \$1 million has been recorded as unearned revenue and is being amortised over the life of the lease.

Unearned revenue includes interest received in advance of \$44.478 million (2022: \$50.723 million) on the novation of Urban Renewal Authority loans to the Treasurer as part of the TAFE buy-back transaction.

**Unearned revenue – capital projects**

Commonwealth grant funding received in the current and prior years to support various infrastructure and capital projects is recorded as unearned revenue. Income is recognised progressively in proportion with the expenditure on the associated asset as this best represents the state's obligation to acquire/construct the assets under the agreements with the Commonwealth.

The balance of this unearned revenue at 30 June 2023 primarily relates to various road and infrastructure projects to be constructed over the next three years by the Department for Infrastructure and Transport.

**A9.2. Contingent assets and liabilities**

The following contingent assets and liabilities exist for the Administered Items:

Residual responsibilities for structural integrity of the National Wine Centre's buildings outside agreed maintenance regimes as required by the Memorandum of Lease - National Wine Centre. The lease expires in September 2043. The estimated maximum exposure of this liability is undefined.

On 26 November 2012, the State appointed Tatts Lotteries SA Pty Ltd (Tatts) as its exclusive Master Agent to operate SA Lotteries' brands and products for a term of 40 years, starting 11 December 2012. Under this arrangement the Lotteries Commission of South Australia is required to pay the Master Agent a master agency fee (payment obligation). The Treasurer has unconditionally and irrevocably guaranteed the performance by Lotteries Commission of South Australia of the payment obligation. The Treasurer has also indemnified the Master Agent against any cost, expense, loss or damage that the Master Agent may incur as a direct result of non-compliance by Lotteries Commission of South Australia with the payment obligation. The Treasurer's maximum aggregate liability to the Master Agent under this agreement is limited to an amount equal to the total quantum of Lotteries Commission of South Australia's liability to the Master Agent for the payment obligation.

The Treasurer guarantees the annual lease obligations and a proportion of outgoings of the Ice Factor Foundation for the Thebarton Ice Arena up to \$4.06 million.

Liabilities incurred or assumed by the Local Government Finance Authority are guaranteed by the Treasurer. The Treasurer's exposure at 30 June 2023 was \$805.5 million (2022: \$692.71 million).

The Treasurer unconditionally and irrevocably guarantees to each beneficiary the due and punctual payment and performance by the Adelaide Venue Management Corporation of the Corporation's obligations to that beneficiary. The estimated maximum exposure of this liability is undefined.

The Treasurer has indemnified the fund of the Local Government Association (LGA) Mutual Liability Scheme for any admitted claim in the nature of a general liability that the LGA in respect of the Mutual Liability Scheme becomes legally liable to pay. For liability risks not covered under the State Government's liability reinsurance program, the indemnity is capped at \$50 million for any one such admitted claim. Any losses that exceed the State Government's liability reinsurance program limits and the \$50 million limit for liability risks not covered by the reinsurance program will be subject to separate negotiations between the LGA and the State Government.

The Treasurer has indemnified South Australian Government Financing Authority (SAFA) against any profit or loss as a result of activities in the Insurance Fund 2 and Fund 3 portfolios. Given the nature of the activities in these funds, the Treasurer has approved that any operating profit before tax will be nil. This is achieved by negating the operating profit or loss with either a payable to or a receivable from the Treasurer. This policy resulted in a net receivable from the Treasurer of \$13.2 million for the year 2022-23 (2022: \$6.4 million payable to the Treasurer).

The Government of South Australia established the Future Jobs Fund. The Fund provided grants and loans to non-government entities intended to create ongoing jobs in a range of sectors. The Fund is now closed to new applicants. Provision of loans and grants from the Fund has been contingent upon applicants meeting their obligations and performance milestones. The amount of undrawn loans and grants from the Fund as at 30 June 2023 was \$5.05 million (2022: \$10.85 million).

**A9.2. Contingent assets and liabilities (continued)**

The Government of South Australia established the Economic and Business Growth Fund that has been renamed to the Jobs and Economic Growth Fund. The Fund promotes economic growth in South Australia by encouraging growth of existing industries, developing new industries, building international connections, and attracting foreign and national direct investment that create long-term sustainable jobs. Provision of grants from the Fund is contingent upon applicants meeting their obligations and performance milestones. For commitments entered into up to 30 June 2023, the amount of undrawn grants from the Fund as at 30 June 2023 was \$1.13 million (2022: \$4.29 million).

Under Section 15 of the *Government Financing Authority Act 1982*, all financial obligations incurred or assumed by SAFA are guaranteed by the Treasurer on behalf of the state of South Australia.

The Government of South Australia established a Local Government Infrastructure Partnership program (LGIPP). The program provides various grants and loans. The amount of undrawn loans and grants from the Program as at 30 June 2023 was \$65.52 million (2022: \$99.90 million).

The Government of South Australia established a Treasurer's School Loans Scheme. The amount of undrawn loans and grants from the Scheme as at 30 June 2023 was \$72.73 million (2022: \$108.82 million).

The Treasurer has indemnified ASIC against any claims by Logistic Education Centre creditors as a consequence of ASIC transferring land back to the Minister for Education, Training and Skills. The estimated maximum exposure of this liability is undefined.

In 2020, Commercial and General sold its interest in the Multi Party Deed to Dexu. To support progress of the Australian Bragg Centre in the onset of the COVID 19 pandemic, in April 2020 the previous government committed the State to support an arrangement with the project's private sector financiers for Lendlease to deliver the building through a managing contractor arrangement. The State's support is in the form of sharing risk with the building's financiers if the cost of delivering the building exceeded its budget of \$372 million. The total budget included both construction and private financing of the building, meaning the State carries the risk of increases in both of these costs. If the budget is exceeded the State must contribute 70% towards the additional cost, with Commercial and General (the project's developers) contributing 30% of the additional cost with their contribution capped at \$4 million. The actual cost of constructing the building and any associated budget overrun to be carried by the State will not be known fully until the building is scheduled to be completed, currently anticipated to occur by September 2023. As at June 2023, the cost of the completing the building is expected to exceed its budget by approximately \$14.2 million. The State's share of this overrun per the Multi Party Deed is approximately \$10.1 million.

**A9.3. Events after the end of the reporting period**

The department is not aware of any events after the reporting period that would impact on the administered financial statements.
