## From the Under Treasurer

In 2021-22 the department continued to provide its core services through a challenging year and my thanks go to all our dedicated and talented staff.

In addition to “normal” activities, the department continued to play its important role in the pandemic response.

In the March 2022 state election South Australians decided on a change of government. The Malinauskas Labor government was sworn in on 21 March 2022 and The Hon Stephen Mullighan MP became SA’s 51<sup>st</sup> Treasurer. Staff across the agency worked hard to ensure this transition was a successful and seamless one for the incoming government. I thank the Treasurer, and his team, for their partnership and patience.

Shortly after taking office the Premier decided on a change to leadership across several government agencies along with some machinery of government changes that saw parts of this agency transition to other areas of government. Long serving Chief Executive of the Department of Treasury and Finance Mr David Reynolds left our agency to lead the Department of Trade and Investment.

I wish to acknowledge David for his outstanding leadership of this agency and his notable contributions in various leadership roles over decades.

The government also decided to release a State Budget in record time. The tireless efforts of so many across this agency, and others, enabled this to occur over a nine-week period. The State Budget was successfully handed down on 2 June 2022.

As a new Under Treasurer, I am indebted to my leadership team and all staff across the agency. Working together, we remain committed to providing quality advice and services that support the South Australian community.

A handwritten signature in black ink, appearing to read 'Rick Persse', with a long horizontal flourish extending to the right.

#### **Other related agencies (within the Minister's area/s of responsibility)**

The following agencies are within the Treasurer's area of responsibility. They each publish their own Annual Report.

#### **Lifetime Support Authority**

The Lifetime Support Authority (LSA) delivers the Lifetime Support Scheme (LSS), which was established under the *Motor Vehicle Accidents (Lifetime Support Scheme) Act 2013*.

Through the LSS, the LSA funds necessary and reasonable treatment, care and support for people who sustain serious injuries in a motor vehicle accident on South Australian (SA) roads, regardless of fault.

The LSA commenced operations on 1 July 2014 and is a statutory authority governed by an independent Board of Directors and a Chief Executive.

LSA is not included in the department's financial statements.

### **Office of the Industry Advocate**

The Office of the Industry Advocate's (OIA) role is to take action to further the objectives of the South Australian Industry Participation Policy and to build the capability and capacity of businesses based in South Australia to participate in State Government contracts.

OIA is not included in the department's financial statements.

### **Compulsory Third Party Regulator**

The purpose of the Regulator is to deliver a high-performing competitive CTP Scheme that offers choice, ease, and confidence to the South Australian community.

The Regulator is established as an independent statutory authority under the *Compulsory Third Party Insurance Regulation Act 2016* (the Act).

The Regulator's functions are funded from the administration fee component of the CTP premium paid by motorists upon registration of their motor vehicles. Regulator staff are employed by Department of Treasury and Finance and seconded to the Regulator.

CTP Regulator is included in the department's financial statements.

### **South Australian Government Financing Authority**

The purpose of the South Australian Government Financing Authority (SAFA) is to deliver quality, cost effective financial, insurance and fleet management services to clients within the South Australian public sector.

SAFA is a statutory authority constituted as the Under Treasurer under the *Government Financing Authority Act 1982* and commenced operations in January 1983.

SAFA is managed by officers assigned from the Department of Treasury and Finance (DTF).

SAFA is included in the department's financial statements.

### **Super SA**

Super SA is the superannuation provider for South Australian public sector employees. They administer the following:

- Triple S Scheme
- Pension Scheme
- Lump Sum Scheme

- Income Stream
- Flexible Rollover Product
- SA Ambulance Service Superannuation Scheme.
- any other super fund established by the SA Government for its employees.

The Super SA Board is responsible for managing the schemes in line with the relevant Acts and legislation, however funds are managed by Funds SA.

Super SA is included in the department's financial statements.

The following business unit is within the Minister for Industrial Relations and Public Sectors area of responsibility and publish their own Annual Report.

### **South Australian Employment Tribunal**

The South Australian Employment Tribunal (SAET) is established under the *South Australian Employment Tribunal Act 2014*. SAET is a statutory independent tribunal and court that:

- Resolves return to work disputes
- Resolves certain employment and industrial disputes
- Regulated South Australia's industrial awards, agreements and registers
- Determines work and safety related prosecutions
- Resolves dust disease matters

Administrative and Corporate support staff were provided by the Department of Treasury and Finance until 30 June 2022. SAET was transferred to the Attorney General's Department from 1 July 2022.

SAET is included in the department's financial statements.

## The agency's performance

### Agency response to COVID-19

DTF has provided policy advice to Government on measures to support the State's economic recovery, including the \$4 billion stimulus package announced in response to COVID-19 in the 2020-21 Budget.

DTF allocated resources to deliver the Government's stimulus program as required, including:

- Managed 2 rounds of small business grants
- Administered the COVID-19 Support Fund (formerly the Business and Jobs Support Fund and the Community and Jobs Support Fund)
- Provided secretariat support and advice to expanded Jobs and Economic Growth Fund Governance Group (formerly the Economic and Business Growth Fund Governance Group)
- Administered the Homebuilder Program
- Administered payroll tax deferral for tourism, hospitality and gyms/other businesses

DTF is also undertaking ongoing monitoring of stimulus measures including monthly reports to the Budget Cabinet Committee and Chief Executive Council as required.

The COVID-19 pandemic continued to have an impact on recipients of loans and grants across the industry assistance portfolio being managed by SAFA. During 2021-22, a considerable number of loan and grant recipients requested and were granted deferrals on loan repayments and performance milestones as result of the effects of the pandemic on their business.

### Corporate performance summary

- DTF was an active contributor to the whole of government COVID Mobilisation Policy and Strategy. During peak periods of activity, DTF mobilised 65 employees to COVID related duties both internal and external to the Agency, including activities at the airport, testing stations, within the SA Health Contact Centre, and administering COVID response grants and programs.
- The DTF Coaching Program was implemented with 17 senior leaders participating in the program. Target audience was those identified as having the potential to take on a more senior or complex role in the future, including Executive roles.
- DTF is well underway with the delivery of Equity, Diversity and Inclusion (ED&I) actions outlined in the ED&I plans.
- An Aboriginal and Torres Strait Islander Employment and Retention Plan has been implemented. This plan includes five key focus areas that aim to enhance employment and development opportunities for Aboriginal and Torres Strait Islander people:
  - Attraction
  - Recruitment
  - Induction
  - Retention
  - Development

<sup>1</sup> Compulsory Third Party regulator, Lifetime Support Authority, Office of the Industry Advocate, South Australian Employment Tribunal, South Australian Financing Authority (SAFA) and Super SA

- Developed an Aboriginal Cultural Awareness Development Strategy. The plan focusses on creating a skilled and flexible workforce that embraces cultural diversity as a positive influence across DTF.
- Achieved re-accreditation as a White Ribbon Australia workplace until 2024.
- The Gender Equality and Respect Plan 2021–2024 was launched in November 2021. The plan outlines actions to create a safe and equitable workplace for all employees, regardless of gender.

## Financial performance

### Financial performance at a glance

The following is a summary of the overall financial position of the agency. The information is unaudited. Full audited financial statements for 2021-2022 are attached to this report.

The 2021-22 comprehensive result of \$12.0 million is \$12.0 million higher than the budgeted surplus of \$0.003 million. This improvement primarily reflects the receipt of accrual appropriation excess funds from the Consolidated Account (\$7.0 million). A range of smaller variations across the department account for the balance of the favourable variation.

The department's actual net assets of \$23.6 million at 30 June 2022 is \$15.6 million higher than budgeted outcome of \$8.0 million. This primarily reflects the better than budget comprehensive result for 2021-22 (\$12.0 million).

## Risk management

### Risk and audit at a glance

DTF continued to manage its risks through online systems and tools, conducted reviews in key areas, co-ordinated year-end assurance processes to support the preparation of DTF's financial statements and conducted a comprehensive review of the strategic risk register.

DTF's Risk and Performance Committee continued to provide high-level oversight of the Risk Management Framework and its implementation across the Agency. In 2021-22 the Committee conducted several oversight activities related to strategic risks, financial statements, risk management, audit, and internal controls.

In November 2021 there was a data breach at the department's outsourced payroll systems service provider, Frontier.

DTF worked proactively with Frontier to ensure a range of strategies were put in place to help protect current and former public sector employees from identity risks. This included DTF commissioning a detailed independent review of the data breach, with the review informing additional strategies to ensure third party systems have appropriate controls to protect government and personal data.

### Fraud detected in the agency

Category/nature of fraud	Number of instances
Timesheet fraud	1

*NB: Fraud reported includes actual and reasonably suspected incidents of fraud.*

Data for previous years is available at: [Department of Treasury and Finance Annual Report statistics - Dataset - data.sa.gov.au](https://data.sa.gov.au/datacatalogue/dataset/department-of-treasury-and-finance-annual-report-statistics)

### Strategies implemented to control and prevent fraud

DTF is committed to the prevention, detection, and control of fraud, corruption, maladministration, and misconduct in connection with the Department's activities. DTF has a zero-tolerance approach to fraud, corruption, or other criminal conduct, Maladministration, and misconduct. DTF is committed to minimising the incidence of fraud and corruption through sound financial, legal, and ethical decision-making and organisational practices and promotes the principles of honesty and integrity consistent with the Code of Ethics for the South Australian Public Sector.

DTF's Fraud and Corruption Policy and Control Framework provide DTF's processes for identifying and responding to fraud risk.

DTF's branches maintain and review their fraud risk register at branch level to ensure any new fraud risks are managed and controls are identified and implemented.

Detection, control, and prevention activities include:

- Disclosure by staff of suspected or actual fraudulent behaviour
- Reviews of transaction reports
- Reviews of management reports
- Data analysis
- Conflict of interest declarations
- Gifts and benefits arrangements
- Employee screening
- Confidentiality arrangements
- Internal and external audits
- Appropriate segregation of duties
- Financial policies and procedures
- Post incident review of internal controls
- Financial year-end declaration processes
- Mandatory fraud and corruption awareness training for new and existing employees.

## Service Improvements

During 2021-22 the Complaints management policy was updated and improved in line with recommendations made in the 2020-21 audit by PwC.

Service Improvements made by individual DTF Branches resulting from complaints or consumer suggestions over 2021-22 are set out below:

### Revenue SA

All complaints are reviewed by the relevant Section Manager and the Executive leadership team.

A new approach to recruitment and training of frontline staff has contributed to service improvements, in particular, first time resolution and the reduction in complaints.

### Super SA

Service improvements resulting from complaints or consumer suggestions implemented in 2021-22 include:

- Amended the legislation to permit extensions of the two year time limit to lodge Total and Permanent Disability claims (TPD) claims, which previously could not be extended under any circumstances.
- Amended the legislation to improve the Total and Permanent Disablement (TPD) definition in the Flexible Rollover Product (FRP) in respect of the work test (meaning it is less restrictive).
- Removed the investment switching fee on all schemes and products, allowing members to make multiple investment switches, without being charged.
- Reviewed and updated Board delegations, to allow more staff to process certain payment types, thereby reducing the time taken to action requests

and improving services to members.

- Enterprise Release Upgrade: Modern Registry Platform which provides great member information security –digital payment system and fast processing times for members.
- Implemented a new process for loading Guardianship orders from the Public Trustee to improve member records.
- Review of member communication and consolidation of forms to improve member outcomes.

### **Shared Services SA**

The following enhancements were made to the Complaint Management System during 2021-22:

- System generated reminder emails are sent to key contacts to ensure complaints are addressed within required timeframes;
- Functionality has been enabled which allows complaints to be actioned by responsible parties across multiple teams within Shared Services SA; and
- The front-end interface has been updated to improve user experience.

Shared Services SA also continues to hold monthly Complaint Management meetings where representatives from each line of business are in attendance. The purpose of the meeting is to discuss reporting and improvement opportunities.

The focus in 2021-22 has been on knowledge sharing, improving the system and ensuring complaint coordinators continue to build their capability in supporting the business with effective complaints management.

### **SafeWork SA**

An analysis of complaint data for the 2021-22 financial year indicated that 31.8% of the complaints received were in regard to service responsiveness and process.

A deep dive of those complaints revealed complainant's expectations where not satisfied with some information given to them. Particularly the limitations of providing information into Work Health and Safety investigations with the Acts confidentiality provisions. A training session conducted during the latter part of 2021-22 on the correct application of providing information to SafeWork SA clients and the need for transparency of process. This has seen a reduction in these areas of complaints and freedom of information requests.

### **Fines Enforcement and Recovery Unit (FERU)**

FERU's strategic direction has a clear focus on providing professional, respectful and empathetic service and interactions to our clients, to ensure we maintain best practice client service outcomes. This includes strengthening the comprehensive training and induction program, maintaining a skilled and valued workforce, maximising self-service options for clients and always looking for ways to do things better and deliver what we promise for both clients, and government.

**Compliance Statement**

Department of Treasury and Finance is compliant with Premier and Cabinet Circular 039 – complaint management in the South Australian public sector.	Yes
Department of Treasury and Finance has communicated the content of PC 039 and the agency's related complaints policies and procedures to employees.	Yes

## To the Under Treasurer Department of Treasury and Finance

### Opinion

I have audited the financial report of the Department of Treasury and Finance for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Department of Treasury and Finance as at 30 June 2022, its financial performance and its cash flows for year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2022
- a Statement of Financial Position as at 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Statement of Administered Comprehensive Income for the year ended 30 June 2022
- a Statement of Administered Financial Position as at 30 June 2022
- a Statement of Administered Cash Flows for the year ended 30 June 2022
- a Schedule of Expenses and Income attributable to administered activities for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information for administered items
- a Certificate from the Under Treasurer and the Acting Director, Financial Services, Organisation and Governance.

### **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Department of Treasury and Finance. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### **Responsibilities of the Under Treasurer for the financial report**

The Under Treasurer is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Under Treasurer is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Under Treasurer is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

### **Auditor's responsibilities for the audit of the financial report**

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987*, I have audited the financial report of the Department of Treasury and Finance for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department of Treasury and Finance's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Under Treasurer
- conclude on the appropriateness of the Under Treasurer's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the Under Treasurer about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

## Notes to and forming part of the financial statements

### For the year ended 30 June 2022

---

#### 1. About the Department of Treasury and Finance

The Department of Treasury and Finance (the department) is a not-for-profit government department of the State of South Australia. The department is established pursuant to the *Public Sector Act 2009* as an administrative unit acting on behalf of the Crown.

The department does not control any other entity and has no interests in unconsolidated structured entities.

The financial statements and accompanying notes include all the controlled activities of the department.

Administered financial statements relating to administered resources are presented separately.

##### 1.1. Basis of preparation

The financial statements are general purpose financial statements prepared to comply with:

- section 23 of the *Public Finance and Audit Act 1987*;
- Treasurer's Instructions and Accounting Policy Statements issued by the Treasurer under the *Public Finance and Audit Act 1987*;
- relevant Australian Accounting Standards.

The financial statements are prepared on a 12 month reporting period and presented in Australian currency. All amounts in the financial statements and accompanying notes have been rounded to the nearest thousand dollars (\$'000). Any transactions in foreign currency are translated into Australian dollars at the exchange rate at the date the transaction occurs. The historical cost convention is used unless a different measurement basis is specifically disclosed in the note associated with the item measured.

Assets and liabilities to be sold, consumed or realised as part of the normal operating cycle have been classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

Significant accounting policies are set out throughout the notes.

The department is not subject to income tax. The department is liable for fringe benefits tax (FBT) and goods and services tax (GST).

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable;
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis, and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

The department has early adopted AASB 2021-2 *Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates* which clarifies the requirements for disclosure of material accounting policy information and clarifies the distinction between accounting policies and accounting estimates. There has been no impact on the department's financial statements.

**1.2. Objectives and programs**

**Objectives**

The department's objectives are to:

- promote sustainable state finances
- support responsible budget and financial management
- deliver timely high-quality services to meet the needs of our clients
- collaborate to deliver high-quality advice on economic, social and environmental issues
- improve safety in South Australian workplaces
- provide industrial relations and procurement services.

During the year, the department administered a range of programs and services to support the prosperity and wellbeing of all South Australians.

**Programs**

In achieving its objectives for 2021-22, the department undertook the following programs:

***Accountability for Public Sector Resources***

The department ensures accountability for public sector resources through providing policy, economic, and financial advice to the government and coordinating resource allocations for Government programs and priorities at the whole-of-government level.

The department supports delivery of a range of key projects aimed at maximising commercial outcomes for government. These projects progress policy reforms and commercial initiatives for the economic benefit of the state.

***Treasury Services***

The department managed the government's financial assets and liabilities and provided certainty of funding to the state.

These services included:

- Administration of taxation legislation through the management of revenue and compliance systems, processes, policy advice and taxpayer education
- Administration of various government grant and subsidy schemes
- Provision of insurance cover to government agencies and advice and management of government risks
- Provision of fleet management services to agencies and vehicle disposal services to government
- Administration of various public sector superannuation schemes and provision of superannuation policy and legislative advice.

**Notes to and forming part of the financial statements**  
*For the year ended 30 June 2022*

---

**1.2. Objectives and programs (continued)**

***Industrial Relations***

The department provided services to ensure the rights and obligations of employees and employers are protected and the relevant law applied to prevent and resolve workplace disputes.

These services included:

- Leading and managing enterprise bargaining negotiations and managing the conduct of employment-related litigation
- Providing industrial relations advice to public sector agencies
- Providing efficient and cost-effective processes for the resolution of employment disputes
- Providing work health and safety and workplace relations education and compliance services to promote safe, fair, productive working lives and high standards of public safety for all South Australians

***Government Services***

The department delivered a comprehensive range of services to various government agencies and the community.

These services included:

- Delivery of corporate services to various government agencies in the areas of accounts payable, accounts receivable, payroll, work injury services and finance
- Providing across government contracts for goods, services and information communications technology and specialist procurement advice and assistance
- Providing support services to members of parliament to assist them in meeting their responsibilities to the parliament and the broader community
- Providing a range of information and communication services to members of parliament, their staff and parliamentary support staff
- Management of overdue fines and expiations issued by authorities across South Australia, including court imposed pecuniary sums. The department also administers the recovery of Victims of Crime and Criminal Injury Compensation debts and recovery of civil (state) debts referred from state government entities.

***General/not attributable:*** Certain activities of the department are not allocated to programs.

The tables on the following pages present income, expenses, assets and liabilities attributed to each program.

**1.3. Impact of COVID-19 pandemic on the department**

The COVID-19 pandemic has impacted on the operations of the department. The impacts are included under the relevant disclosure note 9.4. The key impacts in 2021-22 related to:

- Administrative support for the government's economic stimulus initiatives
- Continued flexible working arrangements for staff

**1.4. Changes to the Department of Treasury and Finance**

**Transferred in**

As a result of an administrative arrangements described in the Government Gazette on 10 June 2021, the Fines Enforcement and Recovery Unit (Fines Unit) became a business unit of the department. Assets and liabilities relating to this business unit were transferred to the department from the Attorney-General's Department.

The effective date of the transfer was 1 July 2021.

On transfer of the Fines Unit, the department recognised the following assets and liabilities:

	<u>\$'000</u>
Receivables	54
Property, plant and equipment	1 051
Intangible assets	<u>2 119</u>
<b>Total assets</b>	<b><u>3 224</u></b>

Employee benefits	1 981
Financial liabilities	439
Other liabilities	<u>45</u>
<b>Total liabilities</b>	<b><u>3 636</u></b>
<b>Total net assets transferred</b>	<b><u>(412)</u></b>

Net assets transferred at carrying amounts.

**1.5. Budget performance**

The budget performance table compares the department's outcomes against budget information presented to Parliament (2021-22 Budget Paper 4). Appropriation reflects appropriation to special deposit accounts and deposit accounts controlled by the department. The budget amounts have not been adjusted to reflect revised budgets or administrative restructures. The budget process is not subject to audit by the Auditor-General's Department.

**1.5. Budget performance (continued)**

**Supplies and services**

The \$22.9 million variation against the original budget mainly reflects higher costs associated with engaging temporary staff to backfill vacant positions and to assist processing backlogs in data processing due to COVID-19 absences. Further contributing to the variation to budget was higher than budgeted expenditure associated with several Super SA strategic transformation projects funded by higher cost recovery from public sector superannuation schemes, information and technology resources received free of charge from the Department of the Premier and Cabinet, costs associated with the administration of grants to small business introduced in response to the COVID-19 pandemic, and higher than budgeted software licence fees for system security upgrades.

**1.6. Significant transactions with government related entities**

Significant transactions with government related entities are identifiable throughout this financial report. All lease payments relate to motor vehicles supplied by Fleet SA.

Appropriations are recognised on receipt.

This table does not show appropriations in the form of a loan or an equity contribution.

Appropriation pursuant to the *Appropriation Act* consist of \$175 million (2021: \$145 million) for operational funding and \$1.8 million (2021: \$3.4 million) for capital projects. This appropriation comprises money issued and applied to the department as per Schedule 1 of the Act, varied pursuant to section 5 of the Act for changed functions and duties of the department (refer to note 1.4 for details of these transferred functions).

<b>Total fees and charges</b>	<b>116 595</b>	<b>104 947</b>

All revenue from fees and charges is revenue recognised from contracts with customers except for the ReturnToWorkSA prescribed fee, South Australian Superannuation Board recoveries, South Australian Government Financing Authority recoveries, and other recoveries.

The department measures revenue based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. All revenue is recognised at a point in time.

The department recognises revenue from the following major sources:

Regulatory fees: Safework SA issues licences and registrations to businesses and members of the public. Licence and registration fees and charges are subject to the government's annual review of regulatory fees and charges, and are of low value. Accordingly, the department has elected to recognise the revenue at the point in time the licence/registration is issued and paid.

ReturnToWorkSA – prescribed fee: ReturnToWorkSA collects the Workplace Health and Safety fee on SafeWork SA's behalf. This fee is added to the ReturnToWorkSA premium and contributes to costs associated with the government's work health and safety activities.

Services are provided to South Australian government agencies. This includes whole of government contract management (e.g. electricity, banking) and non-service level agreement transactional services provided by Shared Services SA (e.g. targeted voluntary separation package calculations). Revenue from these services is recognised on a time-and-material basis as services are provided. Any amounts remaining unpaid at the end of the reporting period are treated as accounts receivable.

Administration fee – Community Emergency Services Fund (CESF): Revenue SA charges the CESF an administration fee to administer the fixed property component of the emergency services levy. Administration fee revenue is recognised at the point in time as the performance obligation is discharged, which is once the services are provided.

**3.2. Board and committee members (continued)**

\* In accordance with the Department of Premier and Cabinet Circular Number 016, Government employees did not receive any remuneration for board/committee duties during the financial year.

**Board and committee remuneration**

The number of members whose remuneration received or receivable falls within the following bands:

	<b>2022</b>	<b>2021</b>
	<b>Number</b>	<b>Number</b>
\$0 - \$19 999	32	35

\$40 000 - \$59 999	4	3
\$60 000 - \$79 999	-	1
<b>Total number of members</b>	<b>40</b>	<b>43</b>

The total remuneration received or receivable by members was \$374 000 (2021: \$406 000). Remuneration of members reflects all costs of performing board/committee member duties including sitting fees, superannuation contributions, salary sacrifice benefits, fringe benefits and any related fringe benefit tax paid. Where a board or committee member has, during the year, been appointed, resigned, retired or term ceased, this has been disclosed, as illustrated above.

The total remuneration received by those employees for the year was \$17.9 million (2021: \$16.1 million).

The table includes all employees who received remuneration equal to or greater than the base executive remuneration level during the year. Remuneration of employees reflects all costs of employment including salaries and wages, payments in lieu of leave, superannuation contributions, termination payments, salary sacrifice benefits and any related fringe benefits tax paid.

**Targeted voluntary separation packages (TVSPs)**

The number of employees who received a TVSP during the reporting period was 70 (2021:5).

In 2022, TVSP's also included separation payments resulting from the Public Sector Workforce Rejuvenation scheme.

<b>Current</b>		
Accrued salaries and wages	194	4 396

<b>Total non-current employee benefits</b>	<b>30 872</b>	<b>34 564</b>
<b>Total employee benefits</b>	<b>50 496</b>	<b>58 016</b>

Employee benefits accrue as a result of services provided up to the reporting date that remain unpaid. Long-term employee benefits are measured at present value and short-term employee benefits are measured at nominal amounts.

**Salaries and wages, annual leave, skills and experience retention leave (SERL) and sick leave**

The liability for salaries and wages is measured as the amount unpaid at the reporting date at remuneration rates current at reporting date.

The annual leave liability and the SERL liability is expected to be payable within 12 months and is measured at the undiscounted amount expected to be paid.

No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees is estimated to be less than the annual entitlement for sick leave.

**Long service leave liability – measurement**

The liability for long service leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

AASB 119 *Employee Benefits* describes the calculation methodology for long service leave liability.

The actuarial assessment performed by the department has provided a basis for the measurement of long service leave and is based on actuarial assumptions for expected future salary and wage levels, experience of employee departures, and periods of service. These assumptions are based on employee data over SA Government entities.

AASB 119 requires the use of the yield on long-term Commonwealth Government bonds as the discount rate in the measurement of the long service leave liability. The yield on long-term Commonwealth Government bonds has changed from 1.25% for 2021 to 3.5% for 2022.

**Department of Treasury and Finance**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2022*

---

**3.4. Employee benefits liability (continued)**

The net financial effect of the bond yield changes to actuarial assumptions in the current financial year is a decrease in the long service leave liability of \$5.160 million and employee benefits expense of \$5.160 million. The impact on future periods is impracticable to estimate as the long service leave liability is calculated using a number of demographical and financial assumptions – including the long-term discount rate.

The actuarial assessment performed by the department left the salary inflation rate at 2.5% for long service leave liability.

**Accommodation**

Most of the department's accommodation is provided by the Department for Infrastructure and Transport under Memoranda of Administrative Arrangements issued in accordance with government-wide accommodation policies. These arrangements do not meet the definition of a lease and accordingly associated rental costs are expensed (included within 'accommodation expense').

**5.1. Property, plant and equipment owned by the Department (continued)**

Property, plant and equipment with a value equal to or in excess of \$10 000 is capitalised, otherwise it is expensed. Property, plant and equipment is recorded at fair value. Note 10.1 describes the department's approach to fair value.

\$4.550 million of fully depreciated plant and equipment is still in use.

**Impairment**

Property, plant and equipment owned by the department has not been assessed for impairment as they are non-cash generating assets, specialised in nature, and held for continual use of their service capacity.

Revaluation of property, plant and equipment is undertaken on a regular cycle as described in note 10.1. If at any time management considers the carrying amount of an asset materiality differs from its fair value, then the asset will be revalued regardless of when the last revaluation took place.

**5.2. Property, plant and equipment leased by the department**

Right-of-use assets for property, plant and equipment leased by the department as lessee are measured at cost and there were no indications of impairment.

The department has 183 motor vehicle leases with the South Australian Government Financing Authority (SAFA). Motor vehicle leases are non-cancellable, with rental payments monthly in arrears. Motor vehicle lease terms can range from 3 years (60,000km) up to 5 years (100,000km). No variable lease payments are provided for in the lease agreements and no options exist to renew the leases at the end of their term.

Short term leases of 12 months or less and low value leases, where the underlying asset value is less than \$15,000, are not recognised as right-of-use assets. The associated lease payments are recognised as an expense and included in note 4.1.

**5.3. Depreciation and amortisation**

All non-current assets, with a limited useful life, are systematically depreciated/amortised over their useful lives in a manner that reflects the consumption of their service potential.

**Useful life**

Depreciation and amortisation are calculated on a straight-line basis over the estimated remaining useful life of the following classes of assets as follows:

<b>Class of asset</b>	<b>Useful life (years)</b>
Buildings	4-69
Building fitouts	1-13
IT equipment	1-5
Internally developed computer software	2-15
Plant and Equipment	3-10
Right-of-use assets	Lease term

**Review of accounting estimates**

Assets' residual values, useful lives, and amortisation methods are reviewed and adjusted, if appropriate, on an annual basis. Changes in the expected life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the time period or method, as appropriate.

**Department of Treasury and Finance**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2022*

**5.4. Intangible assets**

Intangible assets are initially measured at cost and are tested for indications of impairment at each reporting date. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and any accumulated impairment losses.

The acquisition of or internal development of computer software is capitalised only when the expenditure meets the definition and recognition criteria, and when the amount of expenditure is greater than or equal to \$10 000.

<b>Total cash and cash equivalents</b>	<b>23 842</b>	<b>14 140</b>

Although the department controls the funds reported above in the accrual appropriation excess funds account, the Treasurer must approve its use. The department does not earn interest on its deposits with the Treasurer.

**6.2. Receivables**

	2022	2021
	\$'000	\$'000
<b>Current</b>		
Trade receivables	6 858	4 388
Accrued revenues	11 579	9 118
Prepayments	5 568	5 334
Net GST receivable from the ATO	723	1 402
<b>Total current receivables</b>	<b>24 728</b>	<b>20 242</b>
<b>Non-current</b>

<b>Total non-current receivables</b>	<b>249</b>	<b>275</b>
<b>Total receivables</b>	<b>24 977</b>	<b>20 517</b>

Trade receivables arise in the normal course of selling goods and services to other government agencies and to the public. Trade receivables are normally settled within 30 days after the issue of an invoice or the goods/services have been provided under a contractual arrangement.

Other than as recognised in the allowance for doubtful debts, it is not anticipated that counterparties will fail to discharge their obligations. The carrying amount of receivables approximates net fair value due to being receivable on demand. There is no concentration of credit risk. Refer to note 10.2 for further information on risk management.

The net amount of GST receivable from the ATO is included as part of receivables.

Receivables, prepayments and accrued revenues are non-interest bearing. Receivables are held with the objective of collecting the contractual cash flows and they are measured at amortised cost.

The expected credit loss for receivables relating to contracts with SA government entities (as the customer) is considered to be nil based on the nature and credit rating of the SA government entities (as the counterparty to the transaction).

Impairment losses relate to receivables arising from contracts with customers that are external to SA Government. No impairment loss was recognised in 2022 in relation to statutory receivables as all were with South Australian government debtors.

**7. Liabilities**

**7.1. Payables**

	2022 \$'000	2021 \$'000
<b>Current</b>		
Trade payables	233	156
Accrued expenses	17 006	9 003
Employment on-costs	2 809	3 371

<b>Total non-current payables</b>	<b>3 055</b>	<b>3 294</b>
<b>Total payables</b>	<b>23 303</b>	<b>15 845</b>

Payables are measured at nominal amounts.

Payables and accruals are raised for all amounts owing but unpaid. Sundry payables are normally settled within 30 days from the date the invoice is first received. All payables are non-interest bearing. The carrying amount of payables represents fair value due to their short-term nature.

The net amount of GST recoverable from the ATO is included as part of receivables. However, if a net GST payable arises then this amount would be disclosed in this payable note.

**Employment on-costs**

Employment on-costs include payroll tax and superannuation contributions and are settled when the respective employee benefits they relate to are discharged.

The department contributes to several state government and externally managed superannuation schemes. These contributions are treated as an expense when they occur. There is no liability for payments to beneficiaries as they have been assumed by the respective superannuation schemes. The only liability outstanding at reporting date relates to any contributions due but not yet paid to the superannuation schemes.

As a result of an actuarial assessment performed by the department, the portion of long service leave taken as leave has remain unchanged from the 2021 rate (42%) and the average factor for the calculation of employer superannuation on-costs has changed from the 2021 rate (10.1%) to 10.6%. These rates are used in the employment on-cost calculation. The net financial effect of the changes in the current financial year is an increase in the employment on-cost of \$105 000 and employee benefits expense of \$105 000.

**Department of Treasury and Finance**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2022*

**7.2. Financial liabilities**

The department's financial liabilities are lease liabilities.

A maturity analysis of financial liabilities based on undiscounted gross cash flow is reported in the table below:

	2022	2021
Financial Liabilities	\$'000	\$'000
1 to 3 years	1 009	1 200
3 to 5 years	15	9
<b>Total financial liabilities (undiscounted)</b>	<b>1 024</b>	<b>1 209</b>

The department measures financial liabilities including borrowings/debt at amortised cost. Lease liabilities have been measured by discounting lease payments using either the interest rate implicit in the lease where it is readily determined or the department's incremental borrowing rate. There were no defaults or breaches on any of the financial liabilities throughout the year.

Borrowing costs associated with these lease liabilities was \$10 000 (2021: \$14 000).

**7.3. Provisions**

	2022	2021
Reconciliation of workers compensation (statutory and non-statutory)	\$'000	\$'000
Carrying amount at the beginning of the period	11 571	9 567
Payments/other sacrifices of future economic benefits	(894)	(553)
Additional provisions recognised	(800)	2 557
<b>Carrying amount at the end of the period</b>	<b>9 877</b>	<b>11 571</b>

The department is responsible for the payment of workers compensation claims.

The department is an exempt employer under the *Return to Work Act 2014*. Under a scheme arrangement, the department is responsible for the management of workers rehabilitation and compensation and is directly responsible for meeting the cost of workers' compensation claims and the implementation and funding of preventative programs.

Accordingly, a liability has been reported to reflect unsettled workers compensation claims for both statutory and additional compensation schemes.

The workers compensation is based on an actuarial assessment of the outstanding liability as at 30 June 2022 provided by a consulting actuary engaged through the Office of the Commissioner for Public Sector Employment.

The additional compensation scheme provides continuing benefits to workers who have suffered eligible work-related injuries and whose entitlements have ceased under the statutory workers compensation scheme. Eligible injuries are nonserious injuries sustained in circumstances which involved, or appeared to involve, the commission of a criminal offence, or which arose from a dangerous situation.

There is a significant degree of uncertainty associated with estimating future claim and expense payments and the timing of future payments due to the variety of factors involved. The liability is impacted by agency claim experience relative to other agencies, average claim sizes and other economic and actuarial assumptions.

In addition to these uncertainties, the additional compensation scheme is impacted by the limited claims history and the evolving nature of the interpretation of, and evidence required to meeting, eligibility criteria. Given these uncertainties, the actual cost of additional compensation claims may differ materially from the estimate.

**8. Other disclosures**

**8.1. Equity**

The asset revaluation surplus is used to record increments and decrements in the fair value of property and plant and equipment to the extent that they offset one another. Relevant amounts are transferred to retained earnings when an asset is derecognised.

**8.2. Cash flow reconciliation**

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

**9.2. Contingent assets and liabilities**

Contingent assets and contingent liabilities are not recognised in the Statement of Financial Position, but are disclosed by way of a note and, if quantifiable, are measured at nominal value.

*Legal proceedings (SafeWork SA)*

The department is involved in prosecuting breaches under the *Occupational Health, Safety and Welfare Act 1986*, *Fair Work Act 1994*, *Explosives Act 1936* and *Dangerous Substances Act 1979*. At balance date there were 13 matters before the Industrial Relations Court that are yet to be resolved. In the event decisions are not awarded in favour of the department, the contingent liability is estimated to be \$950 000 for the court and prosecution costs.

*Payroll systems data breach*

In November 2021 there was a data breach at the department's outsourced payroll systems service provider, Frontier. The department is currently in negotiations seeking reimbursement of direct costs associated with the investigation of the breach and is also discussing potential compensation. The amount of any reimbursement or compensation cannot yet be quantified.

**9.3. Impact of standards and statements not yet effective**

The department continues to assess the impact of the new and amended Australian Accounting Standards and Interpretations not yet implemented and changes to the Accounting Policy Statements issued by the Treasurer.

Amending Standard AASB 2020-1 *Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-Current* will apply from 1 July 2023. The department continues to assess liabilities e.g. long service leave and whether or not the department has a substantive right to defer settlement. Where applicable, these liabilities will be classified as current.

**9.4. COVID-19 pandemic outlook for the Department**

The COVID-19 pandemic will continue to impact the operations of the department in 2022-23. This is expected to relate to a continuation of those impacts identified at note 1.3 namely:

- Administrative support for any future government economic stimulus initiatives
- Higher up take of flexible working arrangements by staff

**9.5. Events after the reporting period**

From the 1 July 2022, SafeworkSA and Industrial Relations transferred from the department to the Attorney-General's Department. The financial effect of this machinery of government change has not been reflected in the financial statements.

**10. Measurement and risk**

**10.1. Fair value**

AASB 13 *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, in the principal or most advantageous market, at the measurement date.

**Initial recognition**

Non-current tangible assets are initially recorded at cost or at the value of any liabilities assumed, plus any incidental cost involved with the acquisition.

Where assets are acquired at no value, or minimal value, they are recorded at fair value in the Statement of Financial Position. However, if the assets are acquired at no or nominal value as part of a restructure of administrative arrangements, then the assets are recognised at book value (i.e. the amount recorded by the transferor public authority immediately before the restructure).

**Department of Treasury and Finance**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2022*

---

**10.1. Fair Value (continued)**

**Revaluation**

Property, plant and equipment are subsequently measured at fair value after allowing for accumulated depreciation.

Non-current tangible assets are valued at fair value and revaluation of non-current assets or a group of assets is only performed when the fair value at the time of acquisition is greater than \$1.5 million and estimated useful life is greater than three years.

Revaluation is undertaken on a regular cycle. If at any time management considers the carrying amount of an asset materially differs from its fair value, then the asset will be revalued regardless of when the last valuation took place.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amounts of the assets and the net amounts are restated to the revalued amounts of the asset.

**Fair value hierarchy**

The department classifies fair value measurement using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements, based on the data and assumptions used in the most recent revaluation:

- Level 1 – traded in active markets and is based on unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at measurement date.
- Level 2 – not traded in an active market and are derived from inputs (inputs other than quoted prices included within level 1) that are observable for the asset, either directly or indirectly.
- Level 3 – not traded in an active market and are derived from unobservable inputs.

The department's policy is to recognise transfers into and out of fair value hierarchy levels as at the end of the reporting period. All non-financial assets as at 30 June 2022 and 30 June 2021 were categorised in level 3 except level 2 land.

**Land, buildings and building fitout**

An independent valuation of land, buildings and building fitouts owned by the department was performed in June 2021 by independent certified practising valuers.

Fair value of the land has been determined using the market approach. The valuation was based on the recent market transactions for similar land in the area and includes adjustment for factors specific to the land such as size and location. For land classified as restricted in use, fair value was determined by applying and adjusting to reflect the restriction.

The fair values of buildings were determined using current replacement cost, due to there not being an active market. The current replacement cost considered the need for ongoing provision of government services, specialised nature and restricted use of assets, their size, condition and location.

**Plant and equipment**

All items of plant and equipment owned by the department which had a fair value at the time of acquisition less than \$1.5 million or had an estimated useful life less than three years have not been revalued. The carrying value of these items is deemed to approximate fair value.

**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2022*

---

**10.2. Financial instruments**

**Financial risk management**

The department's risk management policies are in accordance with the *South Australian Risk Management Guide* and the principles established in the *Australian Standard Risk Management Principles and Guidelines*.

The department's exposure to financial risk (liquidity risk, credit risk, and market risk) is low due to the nature of the financial instruments held.

**Liquidity risk**

The department is funded principally from appropriation by the Government of South Australia. The department determines the cash flows associated with its government approved program of work and to ensure funding is provided through the Government of South Australia budgetary processes to meet the expected cash flows.

Refer to notes 7.1 and 7.2 for further information.

**Credit risk**

The department has policies and procedures in place to ensure it transacts with customers with appropriate credit history.

No collateral is held as security and no credit enhancements relate to financial assets held by the department.

**Cash and debt investments**

The department considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties and therefore the expected credit loss is nil.

All of the department's debt investments at amortised cost are considered to have low credit risk and the consideration of expected credit loss was limited to 12 months expected losses. The expected credit loss is nil.

**Market risk**

The department does not trade in foreign currency, nor enter into transactions for speculative purposes, nor for hedging. The department does not undertake any hedging in relation to interest or foreign currency risk and manages its risk according to the government's risk management strategy articulated in TI 23 *Management of Foreign Currency Exposures*.

**Categorisation of financial instruments**

Details of the significant accounting policies and methods adopted including the criteria for recognition, the basis of measurement, and the basis on which income and expenses are recognised with respect to each class of financial asset, financial liability and equity instrument are disclosed in the respective financial asset / financial liability notes.

**Classification of financial instruments**

The department measures all financial instruments at amortised cost.

**A1. About the department's Administered Items**

The basis of preparation of the administered financial statement is the same as the basis outlined in note 1.1. The department applies the same accounting policies to the administered financial statements as set out in the notes to the department's financial statements.

**A1.1. Overview of Administered financial statements**

The administered financial statements include the revenues, expenses, assets and liabilities which the department administers on behalf of the Government of South Australia but does not control. All administered activities and the transactions for the special deposit accounts established under section 8 of the *Public Finance Audit Act 1987* and deposit accounts established under section 21 of the PFAA that are administered by the department are described below:

***Administered Items on behalf of the Consolidated Account***

The purpose of the account is to record a number of revenue and expense transactions on behalf of the Government of South Australia for the Consolidated Account. Such transactions include the collection of revenues from taxation, revenues from the Commonwealth Government, dividends and interest. The expense transactions include transfers to agencies for employee entitlements and supplies and services; grants and subsidies to public sector agencies; the private sector and the community; and the transfer of revenues to the Consolidated Account. The associated Statement of Financial Position items for the Consolidated Account such as loans and borrowings are recognised in the whole-of-government general purpose financial report.

***Affordable Housing Fund***

The purpose of the fund is to record all financial transactions of the Fund, including the receipt of revenue, granting and payment of loans to HomeStart Finance as well as the specific accounting disclosures required for concessional loan agreements.

***Commonwealth Funding for National Partnerships***

The purpose of the fund is to receive, hold and disburse certain monies for major infrastructure projects provided from National Partnerships grants received from the Commonwealth.

***Commonwealth Mirror Taxes on Commonwealth Places Revenue Account***

The purpose of the account is to receive amounts that are levied pursuant to the *Commonwealth Places (Mirror Taxes) Act 1998* of the Commonwealth and *Commonwealth Places (Mirror Taxes Administration) Act 1999* of the State.

***Community Development Fund***

The purpose of the fund is to administer annual payments under the *Gaming Machines Act 1992*. Payments are made in accordance with the directions of the Governor towards financial assistance for non-government welfare agencies, financial assistance for community development and the provision of government health, welfare or education services, as well as towards programs of benefit to the live music industry.

***Community Emergency Services Fund***

The purpose of the fund is to record all fixed property revenue from the Emergency Services Levy collected by RevenueSA and transferred to the Community Emergency Services Fund administered by the South Australian Fire and Emergency Services Commission.

**A1.1. Overview of Administered financial statements (continued)**

***Country Equalisation Scheme Account***

The purpose of the account is to record injections of funds provided from the Consolidated Account, and to make refund payments to electricity retailers in accordance with the Country Equalisation Scheme.

***ETSA Sales / Lease Proceeds Account***

The purpose of the account is to receive proceeds of a sale/lease agreement, sale or lease under the *Electricity Corporations (Restructuring and Disposal) Act 1999* and other funds as approved by the Treasurer.

***Fines Enforcement and Recovery***

The purpose of this fund is to record all monies recoverable by the Chief Recovery Officer under the *Fines Enforcement and Debt Recovery Act 2017* and the monies are payable to parties defined in legislation or an administrative determination. The fund does not receive monies payable to the Consolidated Account but to third parties.

***Hospitals Fund***

The purpose of the fund is to record and transfer monies received from SA Lotteries Commission operations and stamp duty on insurance policies relating to motor vehicles to the Consolidated Account to be used for the maintenance, development and improvement of public hospitals.

***Intergovernmental Agreement on Federal Financial Relations***

The purpose of the account is to receive and disburse money paid to the State Treasury in accordance with the Intergovernmental Agreement on Federal Financial Relations, where that money is not receipted directly to the Consolidated Account.

***Industrial Tribunal Payments into Court***

This is to record payments and receipts relating to South Australian Employment Tribunal judgements.

***Industry Financial Assistance Account (IFAA)***

The account was established to assist with the accounting for the industry assistance contracts written in the name of the Treasurer. The South Australian Government Financing Authority (SAFA) is responsible for administering the IFAA on behalf of the Treasurer.

***Local Government Disaster Fund***

The purpose of the fund is to record the cost of providing assistance to local authorities which face unusually high expenditures as a result of natural disasters. Assistance may be of an investigative, preventative, remedial, insurance, compensatory or other nature and may include funding of insurance or other commercial schemes.

***Local Government Taxation Equivalents Fund***

The account was established to record receipts of tax equivalents from the Local Government Finance Authority (LGFA) and payments to the Local Government Association of South Australia as stipulated under the *Local Government Finance Authority Act 1983*.

**A1.2. Impact of COVID-19 pandemic**

The key impacts of the COVID-19 pandemic in 2021-22 relate to a range of measures the Government introduced in 2019-20 to help the South Australian community manage the economic effects of the pandemic comprising:

- A series of taxation deferral measures
- A broad range of initiatives through the COVID-19 Support Fund financial packages.

Furthermore, the department administered the payment aspect of the private hospital initiative pursuant to the National Partnership on COVID-19 Response agreement (NPA) with the Commonwealth.

**A1.3. Changes to the Department of Treasury and Finance's administered items**

**Transferred in**

As a result of administrative arrangements described in the Government Gazette on 10 June 2021, the Fines Enforcement and Recovery Unit (Fines Unit) became a business unit of the department. Assets and liabilities relating to this business unit were transferred to the department from the Attorney-General's Department.

The effective date of the transfer was 1 July 2021.

On transfer of the Fines Unit, the department's administered items recognised the following assets and liabilities:

	<b>\$'000</b>
<b>Current assets</b>	
Receivables	9 520
<b>Total current assets</b>	<u>9 520</u>

**A1.4 Budget performance (continued)**

Explanations are provided for variances where the variance exceeds the greater of 10% of the original budgeted amount and 5% of original budgeted total expenses.

The following are brief explanations of variances between original budget and actual amounts:

**1 Commonwealth revenues**

The \$3.767 billion variation against the original budget is primarily due to the actual funding from the Commonwealth for Intergovernmental Agreement on Federal Financial Relations (\$3.324 billion) being recorded in the Statement of Administered Comprehensive Income while the associated budget is disclosed as part of the Statement of Cash Flows for Other Accounts which does not form part of the Statement of Administered Comprehensive Income original budget amount.

South Australia's share of the GST pool increased resulting in additional GST revenue grants (\$0.409 billion).

**2 Grants, subsidies and transfers**

The \$1.514 billion variation against original budget is primarily due to original budget amount including the Consolidated Account deficit expense where the associated Actual is reported in Treasurer's Statements - Statement A (\$5.336 billion).

This variation is offset by payments to agencies (\$3.182 billion) in relation to the Intergovernmental Agreement on Federal Financial Relations being recorded in the Statement of Administered Comprehensive Income while the associated budgets are disclosed as part of the Statement of Cashflows for Other Accounts. A further offset arises from inclusion in the original grants, subsidies and transfers budget an amount for the repayment of advances (\$0.546 billion) while the actual transactions are treated as income in the Statement of Administered Comprehensive Income.

**3 Payments to SA Government**

The \$2.159 billion variation against the original budget is due to increased payments for the transfer of revenue received on behalf of the Consolidated Account resulting from additional income primarily for taxation and Commonwealth revenues.

**A1.5. Significant transactions with government related entities**

Significant transactions with the government related entities are identifiable throughout this financial report, all lease payments relate to motor vehicles supplied by Fleet SA.

**A2.2 Taxation (continued)**

Taxation revenue includes payroll tax, stamp duty, betting operations tax, property taxes (land tax and emergency services levy), income tax equivalents and contributions from the Lotteries Commission of South Australia. All taxes and levies are collected on behalf of the state government and recognised on receipt. All taxation and levy revenues are reported net of any refunds issued.

Payroll tax is payable pursuant to the *Payroll Tax Act 2009*.

Stamp duty is a charge on certain instruments. Stamp duty is charged at either a flat rate or an *ad valorem* rate (based on the value of the transaction) depending on the particular document or transaction. Stamp duty applies to a range of instruments including conveyances, motor vehicles transfers and insurance transactions. Stamp Duty is levied under the authority of the *Stamp Duties Act 1923*, which is supported by the *Stamp Duties Regulations 2002*.

Land tax is charged on land ownership and calculated according to the site value. The land owner is exempt from land tax where the land constitutes the owner's principal place of residence, conditions apply (other exemptions also apply based on land use).

As a result of changes to the *Casino Act 1997* and Casino Agreements the Commissioner of State Taxation commenced administration and collection of the Casino Duty from 1 January 2014. This includes all duty from gaming tables and gaming machines within the Adelaide Casino.

Betting operations tax is effective from 1 July 2017. It is a consumption tax of 15% on the Net Wagering Revenue (NWR) of betting companies offering services to South Australia.

The department also collects the fixed property component of emergency services levy payable under the *Emergency Services Funding Act 1998*.

Tax equivalents are collected from applicable public authorities or business units in accordance with *Treasurer's Instruction 22 'Tax Equivalent Payments'*. Tax equivalent payments calculated and collected include Accounting Profits Method at the companies' income tax rate under the *Commonwealth's Income Tax Assessment Act 1997*, *Land Tax and Local Government Rates*.

Contributions from the Lotteries Commission of South Australia include distributions to the Hospitals Fund received in accordance with the *State Lotteries Act 1966*.

<b>Total Commonwealth revenues</b>	<b>10 699 448</b>	<b>8 959 931</b>

Commonwealth revenue includes GST grants, Specific Purpose Payments and National Partnership Payments received from the Commonwealth pursuant to the Intergovernmental Agreement on Federal Financial Relations.

Specific Purpose Payments can either be ongoing tied grants or time-limited National Partnership payments (NPPs) and Project Agreements (PAs).

National Partnership Payments are time limited agreements associated with the relevant federal financial agreement, to fund specific projects and to facilitate or reward the states that deliver national significant reforms. Funding can be for both recurrent and capital purposes.

**Commonwealth grants**

Income from Commonwealth grants is recognised when the department obtains control over the granted assets (eg cash), unless the grant is a capital grant to acquire/construct recognisable non-financial assets. All Commonwealth grants are accounted for under AASB 1058 as the arrangements with the Commonwealth do not constitute contracts with customers.

GST revenue is general revenue assistance provided by the Commonwealth in accordance with the principles of horizontal fiscal equalisation under the Intergovernmental Agreement on Federal Financial Relations that may be spent for any purpose. The GST revenue is received monthly.

Specific Purpose payments and the National Partnership Payments are typically received when the state completes each milestone stipulated in the contract agreement and or/ its schedule and submits the performance report for the completed milestones by the due dates to the Commonwealth.

**Commonwealth capital grants to acquire/construct recognisable non-financial assets**

Income from Commonwealth capital grants to acquire or construct a recognisable non-financial asset to be controlled by the state is recognised as the non-financial assets are being constructed. The recognition of revenue is in proportion with the expenditure on the asset, as this best represents the satisfaction of the state's obligation to acquire/construct the assets under the agreements. Grants to acquire or construct recognisable non-financial assets primarily relate to Commonwealth funding received for construction or upgrade of transport and road infrastructure assets.

The total remuneration received by those employees and officers for the year was \$3.6 million (2021: \$3.9 million).

The table includes all employees who received remuneration equal to or greater than the base executive remuneration level during the year. Remuneration of employees reflects all costs of employment including salaries and wages, payments in lieu of leave, superannuation contributions, termination payments, salary sacrifice benefits and any related fringe benefits tax paid.

**Long service leave liability measurement**

Refer to note 3.4.

The net financial effect of the changes in the financial year described in note 3.4 is a decrease in the long service leave liability of \$50 000 (2021: \$318 000) and employee benefits expense of \$50 000 (2021: \$318 000). The impact on future periods is impracticable to estimate as the long service leave liability is calculated using a number of assumptions - a key assumption is the long-term discount rate.

**Accommodation**

Most of the department's administered accommodation is provided by the Department for Infrastructure and Transport under Memoranda of Administrative Arrangement issued in accordance with government-wide accommodation policies. These arrangements do not meet the definition of a lease and accordingly associated rental costs are expensed within accommodation expense.

Interest paid on deposit accounts and other monies	466	1 203
<b>Total borrowing costs</b>	<b>318 326</b>	<b>263 303</b>

The department administers payment of interest on borrowings on behalf of the Treasurer but the debt is not recorded in the Statement of Administered Financial Position. Treasurer's borrowings are disclosed in Statement J of the Treasurer's Statements and the government's annual consolidated financial report.

Borrowing costs include annual interest charges on the Treasurer's borrowings from South Australian Government Financing Authority and interest paid by the Treasurer on agency deposit and special deposit accounts.

Interest is paid from the Treasury and Finance Administered Items special deposit account using funds appropriated for that purpose. While the department administers these payments on behalf of the Treasurer, the underlying loan arrangements are administered by South Australian Government Financing Authority and are therefore not included in the Statement of Administered Financial Position.

Further information on borrowings undertaken by the Treasurer for the Government of South Australia and other government financial assets and liabilities can be found in the South Australian Government Financing Authority annual report and the Consolidated Financial Report for the Government of South Australia prepared under AASB 1049 *Whole of Government and Government Sector Financial Reporting*.

**State Owned Generators Leasing Co Pty Ltd**

The Treasurer of South Australia holds 113 100 001 fully paid ordinary shares in the State Owned Generators Leasing Co Pty Ltd (SOGLC). SOGLC owns the state's emergency electricity generators and leases these assets to third party operators.

At 30 June 2022 SOGLC's generator assets had been, or were imminently expected to be, removed from their temporary sites and relocated to permanent locations. Certain specialist equipment for connecting the generator assets to establish operational power stations will not be transferred to the third party operators. These remaining assets will be sold or scrapped. Consequently, SOGLC's net assets (unaudited) declined by \$62.2 million from \$212.0 million at 30 June 2021 to \$149.8 million at 30 June 2022. Reflecting SOGLC's lower net assets, the carrying value of the Treasurer's investment in SOGLC has been revised downward from \$212.9 million at 30 June 2021 to \$149.8 million at 30 June 2022.

**Scope Global Pty Ltd**

The company's principal activity is to secure international contracts for work in vocational education and training.

One hundred per cent of the Treasurer's investment in Scope Global Pty Ltd was sold in 2021-22.

As a result of an actuarial assessment performed by the department, the proportion of long service leave taken as leave for 2022 has remained unchanged from the 2021 rate of 42%. The average factor for the calculation of employer superannuation cost on-costs has been revised upward from the 2021 rate of 10.1% to 10.6% in 2022. These rates are used in the employment on-cost calculation. The net financial effect of the changes in the current financial year is an increase in the employment on-cost of \$2 100 and employee benefits expense of \$2 100.

**Unearned revenue**

In 2003 the Treasurer agreed to lease to the University of Adelaide over a forty year period the land and buildings previously owned by the National Wine Centre. The agreement's upfront consideration of \$1 million has been recorded as unearned revenue and is being amortised over the life of the lease.

Unearned revenue includes interest received in advance of \$50.723 million (2021: \$57.585 million) on the novation of Urban Renewal Authority loans to the Treasurer as part of the TAFE buy-back transaction.

**Unearned revenue – capital projects**

Commonwealth grant funding received in the current and prior years to support various infrastructure and capital projects is recorded as unearned revenue. Income is recognised progressively in proportion with the expenditure on the associated asset as this best represents the state's obligation to acquire/construct the assets under the agreements with the Commonwealth.

The balance of this unearned revenue at 30 June 2022 primarily relates to various road and infrastructure projects to be constructed over the next three years by the Department for Infrastructure and Transport.

**A9.2. Contingent assets and liabilities**

The following contingent assets and liabilities exist for the Administered Items:

Residual responsibilities for structural integrity of the National Wine Centre's buildings outside agreed maintenance regimes as required by the Memorandum of Lease - National Wine Centre. The lease expires in September 2043. The estimated maximum exposure of this liability is undefined.

On 26 November 2012, the State appointed Tatts Lotteries SA Pty Ltd (Tatts) as its exclusive Master Agent to operate SA Lotteries' brands and products for a term of 40 years, starting 11 December 2012. Under this arrangement the Lotteries Commission of South Australia is required to pay the Master Agent a master agency fee (payment obligation). The Treasurer has unconditionally and irrevocably guaranteed the performance by Lotteries Commission of South Australia of the payment obligation. The Treasurer has also indemnified the Master Agent against any cost, expense, loss or damage that the Master Agent may incur as a direct result of non-compliance by Lotteries Commission of South Australia with the payment obligation. The Treasurer's maximum aggregate liability to the Master Agent under this agreement is limited to an amount equal to the total quantum of Lotteries Commission of South Australia's liability to the Master Agent for the payment obligation.

The Treasurer guarantees the annual lease obligations and a proportion of outgoings of the Ice Factor Foundation for the Thebarton Ice Arena up to \$4.06 million.

Liabilities incurred or assumed by the Local Government Finance Authority are guaranteed by the Treasurer. The Treasurer's exposure at 30 June 2022 was \$692.71 million (2021: \$760.3 million).

The Treasurer unconditionally and irrevocably guarantees to each beneficiary the due and punctual payment and performance by the Adelaide Venue Management Corporation of the Corporation's obligations to that beneficiary.

The Treasurer has indemnified the fund of the Local Government Association (LGA) Mutual Liability Scheme for any admitted claim in the nature of a general liability that the LGA in respect of the Mutual Liability Scheme becomes legally liable to pay. For liability risks not covered under the State Government's liability reinsurance program, the indemnity is capped at \$50 million for any one such admitted claim. Any losses that exceed the State Government's liability reinsurance program limits and the \$50 million limit for liability risks not covered by the reinsurance program will be subject to separate negotiations between the LGA and the State Government.

The Treasurer has indemnified South Australian Government Financing Authority (SAFA) against any profit or loss as a result of activities in the Insurance Fund 2 and Fund 3 portfolios. Given the nature of the activities in these funds, the Treasurer has approved that any operating profit before tax will be nil. This is achieved by negating the operating profit or loss with either a payable to or a receivable from the Treasurer. This policy resulted in a payable to the Treasurer of \$6.4 million for the year 2021-22 (2021: \$2.75 million payable to the Treasurer).

The Government of South Australia established the Future Jobs Fund. The Fund provided grants and loans to non-government entities intended to create ongoing jobs in a range of sectors. The Fund is now closed to new applicants. Provision of loans and grants from the Fund has been contingent upon applicants meeting their obligations and performance milestones. The amount of undrawn loans and grants from the Fund as at 30 June 2022 was \$10.85 million (2021: \$17.98 million).

**A9.2. Contingent assets and liabilities (continued)**

The Government of South Australia established the Economic and Business Growth Fund that has been renamed to the Jobs and Economic Growth Fund. The Fund promotes economic growth in South Australia by encouraging growth of existing industries, developing new industries, building international connections, and attracting foreign and national direct investment that create long-term sustainable jobs. Provision of grants from the Fund is contingent upon applicants meeting their obligations and performance milestones. For commitments entered into up to 30 June 2022, the amount of undrawn grants from the Fund as at 30 June 2022 was \$4.29 million (2021: \$14 million).

Under Section 15 of the *Government Financing Authority Act 1982*, all financial obligations incurred or assumed by SAFA are guaranteed by the Treasurer on behalf of the state of South Australia.

The Government of South Australia established a Local Government Infrastructure Partnership program (LGIPP). The program provides various grants and loans. The amount of undrawn loans and grants from the Program as at 30 June 2022 was \$99.9 million.

The Government of South Australia established a Treasurer's School Loans Scheme. The amount of undrawn loans and grants from the Scheme as at 30 June 2022 was \$108.82 million.

The Government of South Australia established a COVID-19 Support fund. The amount of undrawn loans and grants from the Fund as at 30 June 2022 was \$0.05 million.

The Treasurer has indemnified ASIC against any claims by Logistic Education Centre creditors as a consequence of ASIC transferring land back to The Minister for Employment.

**A9.3. Impact of standards and statements not yet effective**

The department continues to assess the impact of the new and amended Australian Accounting Standards and Interpretations not yet implemented and changes to the Accounting Policy Statements issued by the Treasurer.

Amending Standard AASB 2020-1 *Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-Current* will apply from 1 July 2023. The department continues to assess liabilities e.g. LSL and whether or not the department has a substantive right to defer settlement. Where applicable, these liabilities will be classified as current.

**A9.4. COVID-19 pandemic outlook**

The COVID-19 pandemic will continue to impact the operations of the department in 2022-23. The government introduced a series of taxation deferral and financial support measures in 2019-20 to help the South Australian community manage the economic effects of the COVID-19 pandemic. The pandemic continues to create uncertainty. Consequently, the future financial impact of these measures cannot yet be reliably estimated.
